Company Profile

ABOUT ASUS

ASUS, the **world's top 3 consumer notebook** vendor and the maker of the world's best-selling and most award winning motherboards, is a leading enterprise in the new digital era. ASUS designs and manufactures products that perfectly meet the needs of today's digital home, office and person, with a broad portfolio that includes motherboards, graphics cards, optical drives, displays, desktops, Eee Box and all-in-one PCs, notebooks, netbooks, tablet devices, servers, multimedia and wireless solutions, networking devices, and mobile phones.

Driven by innovation and committed to quality, ASUS won **3,886 awards in 2011** and is widely credited with revolutionizing the PC industry with the Eee PC™. With a global staff of more than 11,000 and a world-class R&D team of 3,100 engineers, 900+ support centres worldwide, the company's revenue for 2011 was around US\$11 billion.

ASUS is the Top 3 Consumer Notebook Brand in the World

According to the latest IDC report (Q4, 2011), ASUS notebooks are climbing the worldwide sales charts at an unprecedented pace, with sales outstripping those of companies who once dominated this market.

- The Top 1 notebook brand in Central and Eastern Europe
- The Top 2 notebook brand in China
- The Top 3 notebook brand in Western Europe
- The Top 4 notebook brand in Asia Pacific

ASUS is the No.1 Motherboard Brand in the World

- ASUS had shipped 420,000,000 motherboards since 1989.
- One in every 3 PCs sold worldwide in 2010 was equipped with an ASUS motherboard inside.

The mainboard is the key to the quality and reliability of the notebook PC, so you can be sure that ASUS has the best quality & reliability notebooks.

ASUS is a Top Information Technology Company in the World

ASUS is ranked top 10 in the Consumer Electronics category of "The world's Most Innovative Companies 2010" by Fast Company, a media publication that tracks the pulse of the web and tech industry.

ASUS is No.1 in Quality & Service

ASUS strives for perfection in all of our products and we consistently win awards for quality and innovation. This is reflected in the No.1 rank we have attained for product quality and services from the **Wall Street Journal Asia**.

ASUS Green Technology

ASUS continues to lead the industry in the adoption of greener technology, and is the first in the world to achieve EU Flower Eco Certification for computers and EuP Certification for portable notebooks.

ASUS recommends Windows 8.

ASUS received 3,886 Awards in 2011

A testament to our commitment to innovation, design and quality, ASUS garnered a total of 3,886 awards from prestigious technology organizations and IT journalists worldwide.

ASUS recommends Windows 8.

ASUS Now Southeast Asia's Second Biggest Notebook Brand

Due to consumer trust in ASUS quality and innovative designs, the company has become one of the regional top two notebook brands based on 2011 whole-year performance

ASUS celebrates another year of business excellence in 2011. Achieving a 145% growth rate last year, ASUS is the only PC brand to display strong expansion for 12 consecutive quarters, despite prominent seasonal factors and a tough global macro-economic landscape with deep impact on Southeast Asia markets and consumption.

According to IDC's whole-year 2011 rankings, ASUS has become one of the top two notebook brands in Southeast Asia.

VENDOR	RANK
Acer	1
ASUS	2
HP	3
Toshiba	4
Dell	5
Lenovo	6

Source: Gartner-SEA 2011 Historical Data

Commenting on this, George Su, Country Manager of ASUS Malaysia, said:

“New ideas and technologies pave the way for success”

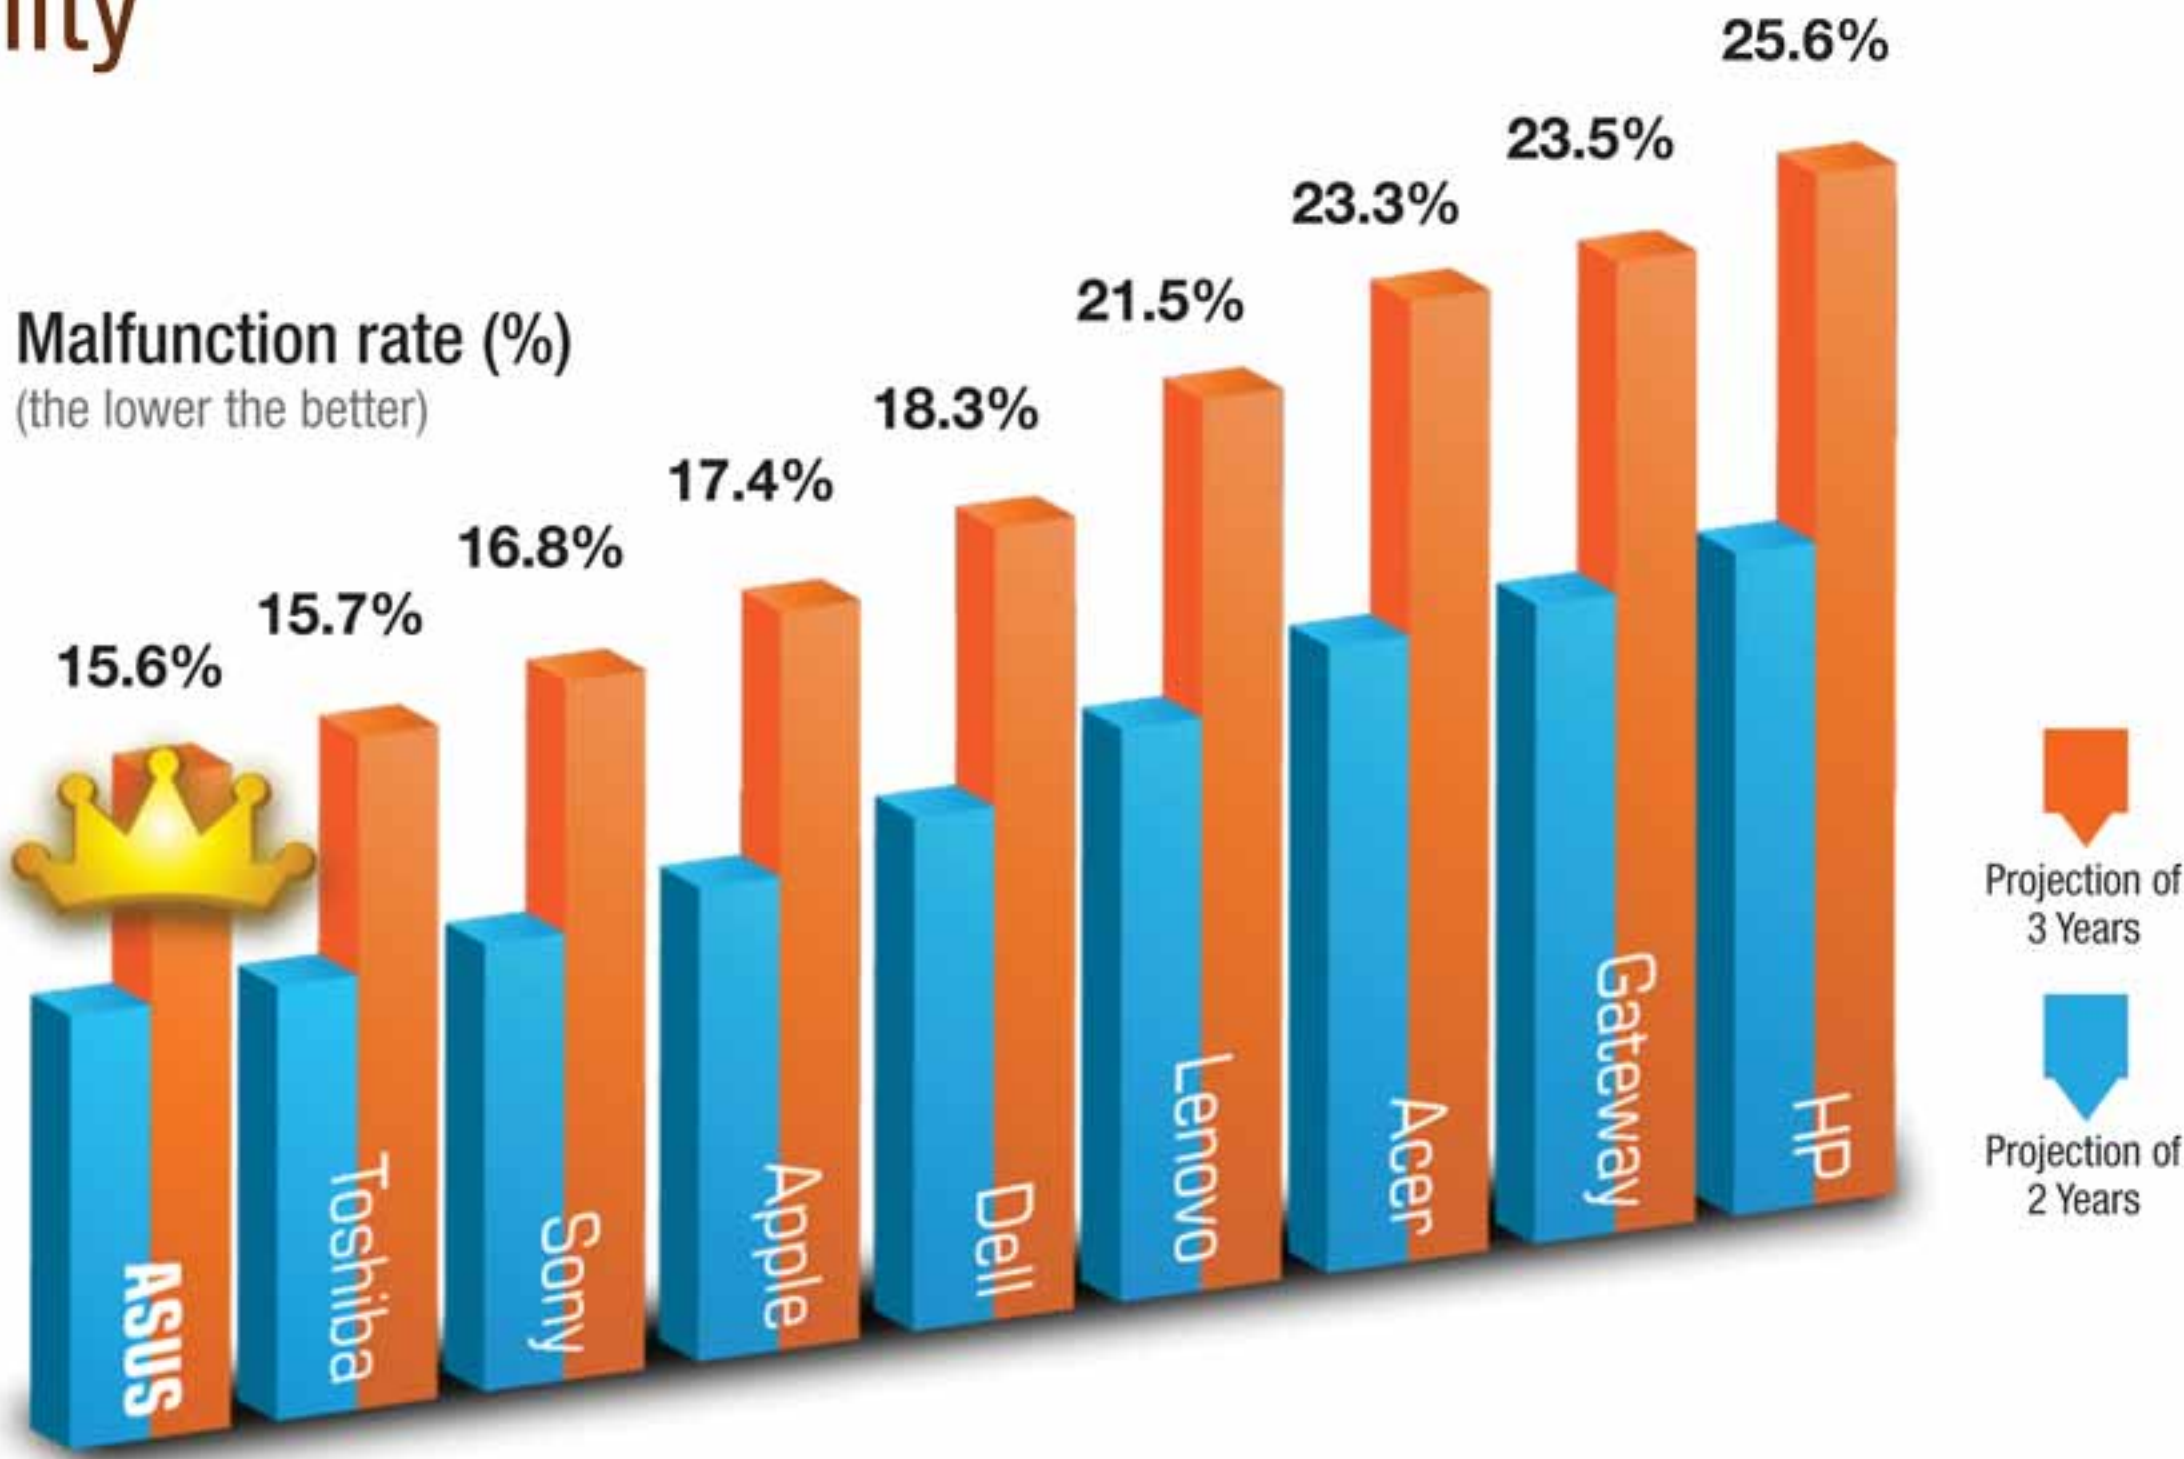

“ASUS greatly appreciates the recognition we and our products receive from consumers, and would like to thank all channel partners for their great support. We will continue to provide the best quality products through consistent innovation and persistent perfection.”

Survey of 30,000 notebooks lists ASUS as top of reliability ranking

On November 16th, 2009, SquareTrade, the largest independent warranty service provider in United States, published a report that analyzed the failure rates of over 30,000 new notebook computers manufactured by the leading 9 notebook brands over the past 3 years. A minimum of 1000 unit notebooks of each brand was sampled.

According to this survey, ASUS laptops failed just over half as frequency as HP, which makes them a solid bet in terms of reliability

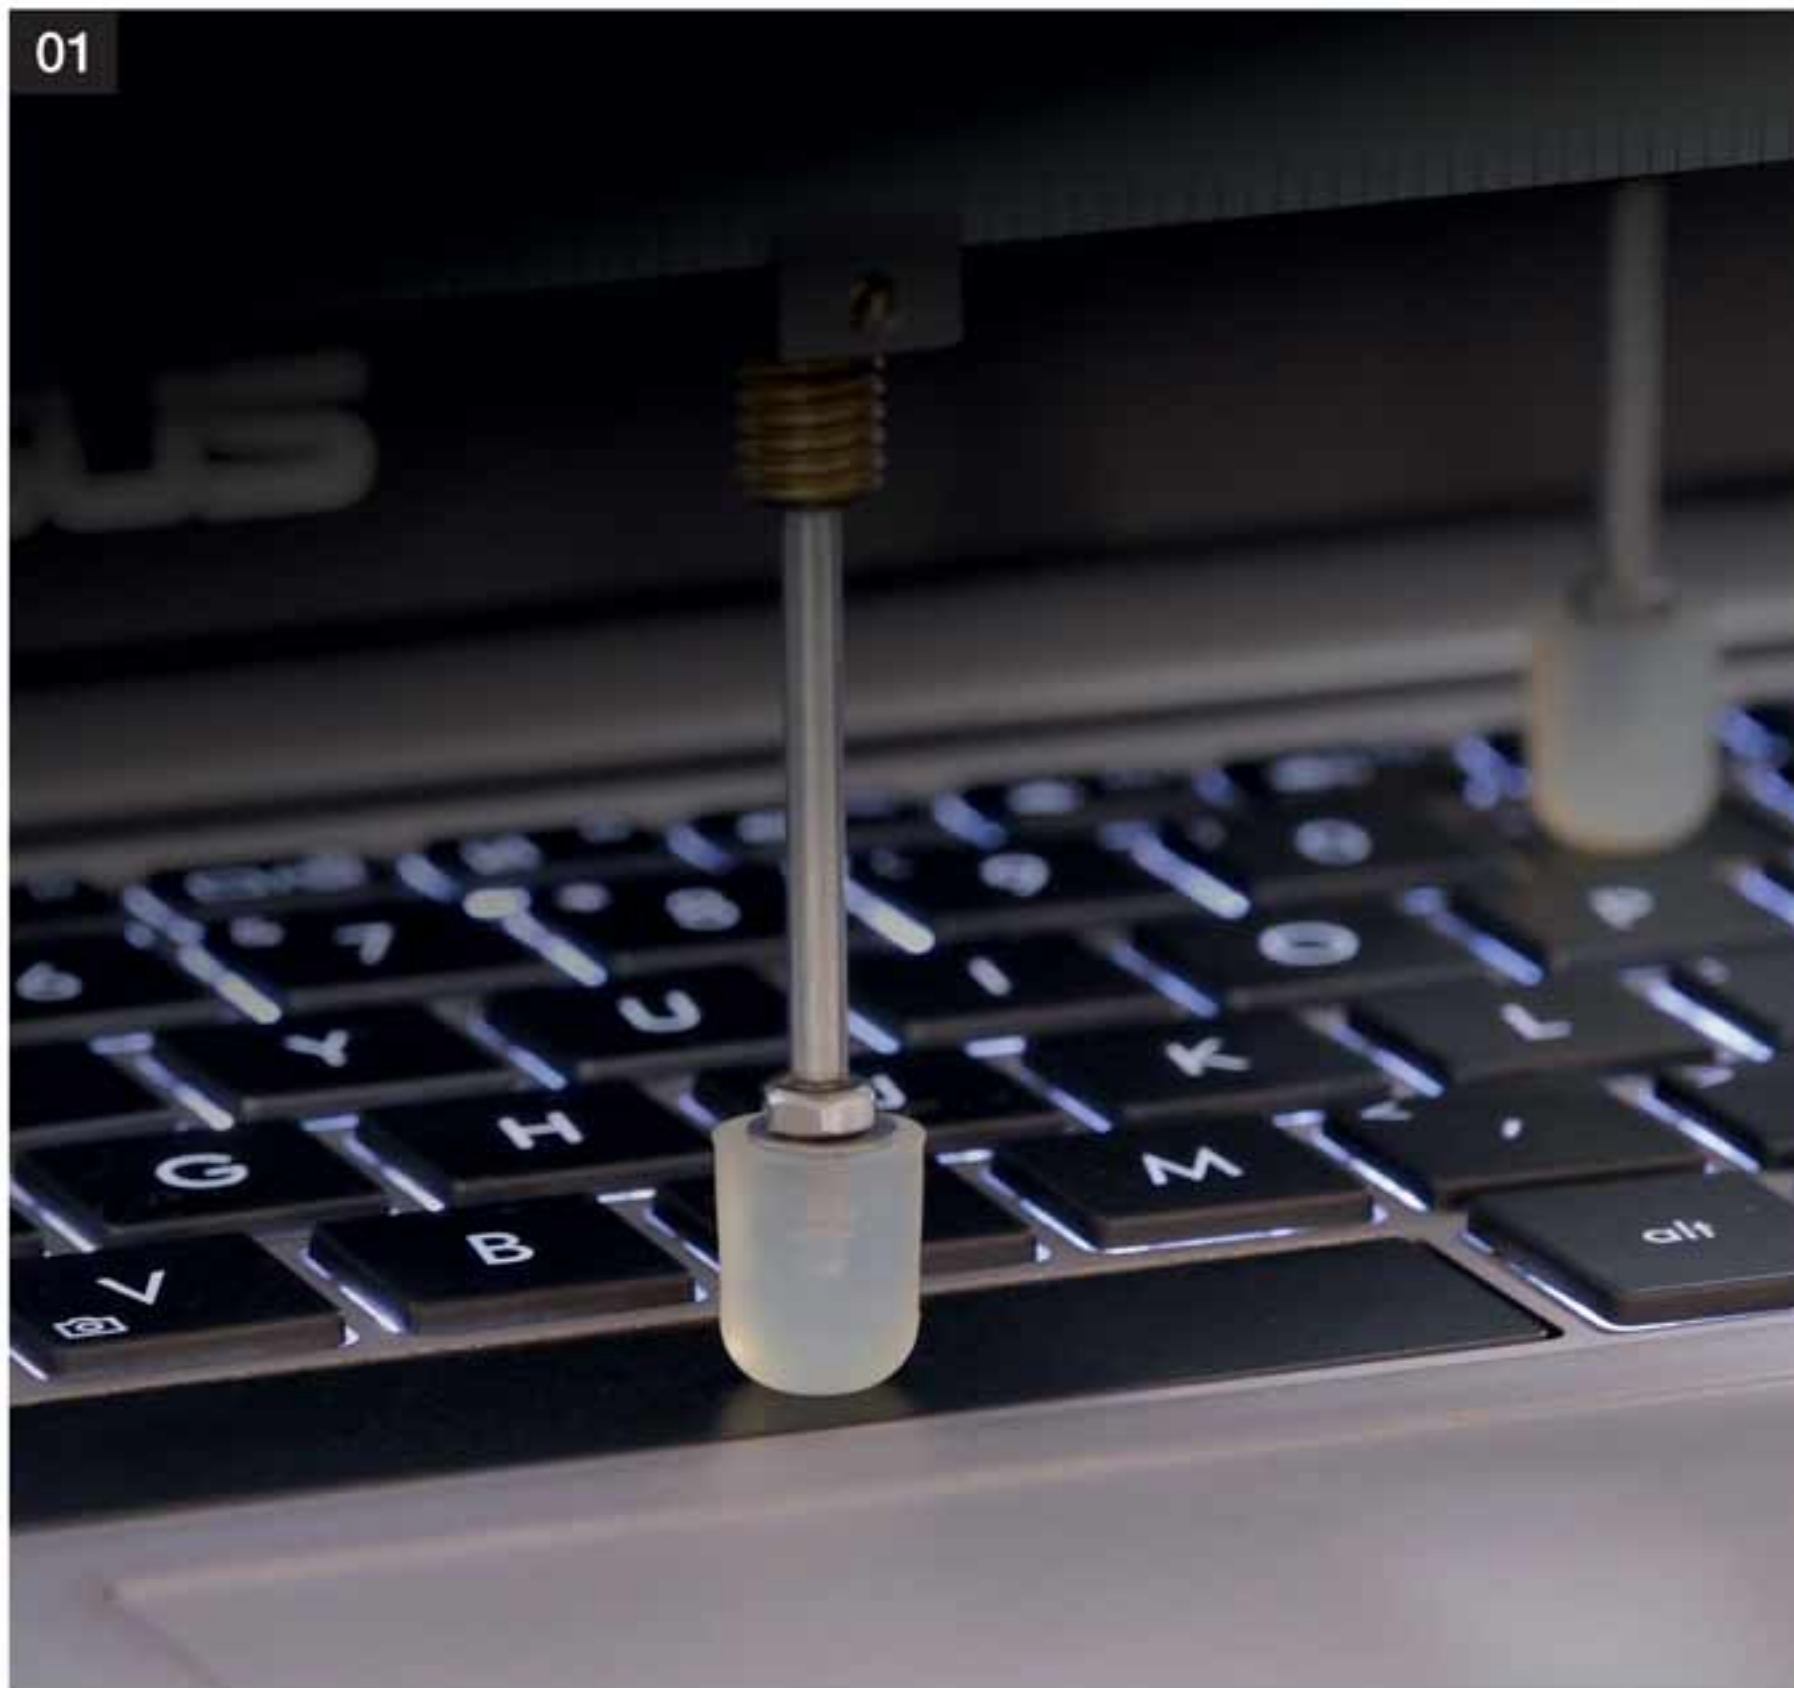

With 3 years malfunction rates to be under 16%, notebooks from ASUS are nearly 40% more reliable than Hewlett-Packard, the worst performer in this study. The industry leader HP, which shipped nearly 16 million notebooks in the pass year according to IDC, ranked dead last in this reliability study with over one-fourth of notebooks expected to malfunction in 3 years. Gateway and Acer, the No.2 maker of notebooks, were also nearly unreliable as HP, with an expected malfunction rate of over 23%.

Source : <http://www.squaretrade.com/pages/laptop-reliability-1109/> SquireTrade, 2009/Nov/16th, Report “1 in 3 Laptops fail over 3 years”

SquareTrade Report disclaimer:
- As there is no sharp line that divides the definition of a netbook and laptop computer, SquareTrade has used the price point of under \$400 to define the netbook category in this analysis.
- Only malfunctions reported directly to SquareTrade are included in the data. Other malfunctions, including software issues handled directly by the retailer, problems associated with product recalls, and those fixed by software/firmware updates, may not be represented in this data.
- We did not take into consideration purchase location.
- The document and all of its contents are provided as-is. SquareTrade has made efforts to ensure that the data and conclusions we present are correct, but makes no warranty, express or implied, about the data accuracy of the data.

EXTREME TEST ensure TOP-QUALITY notebooks

Take a look at what makes ASUS notebooks the most trustworthy in the business. If we listed every test and step our engineers actually use to make sure you get the best notebooks possible, this would go on forever — so consider this a taste!

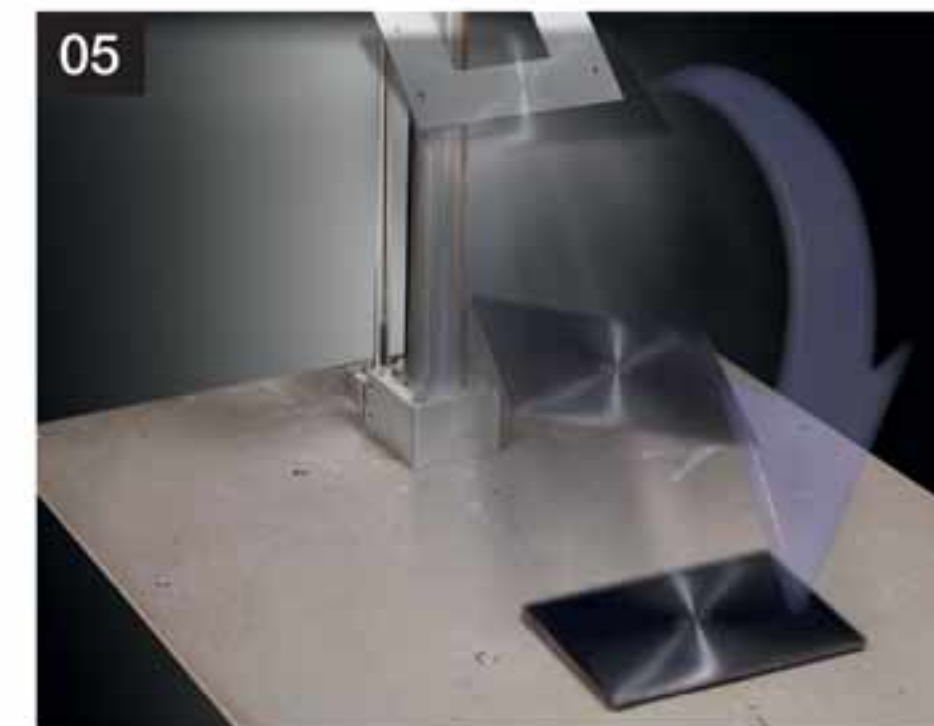

01 Express yourself confidently thanks to keyboard durability tests, where special robots punch each key to check its feedback and lastability even in the face of some brutal input!

02 Abrasive resistance test subjects ASUS notebook exteriors to friction, indicating colors and surface materials stay at prime condition even after extensive and demanding usage.

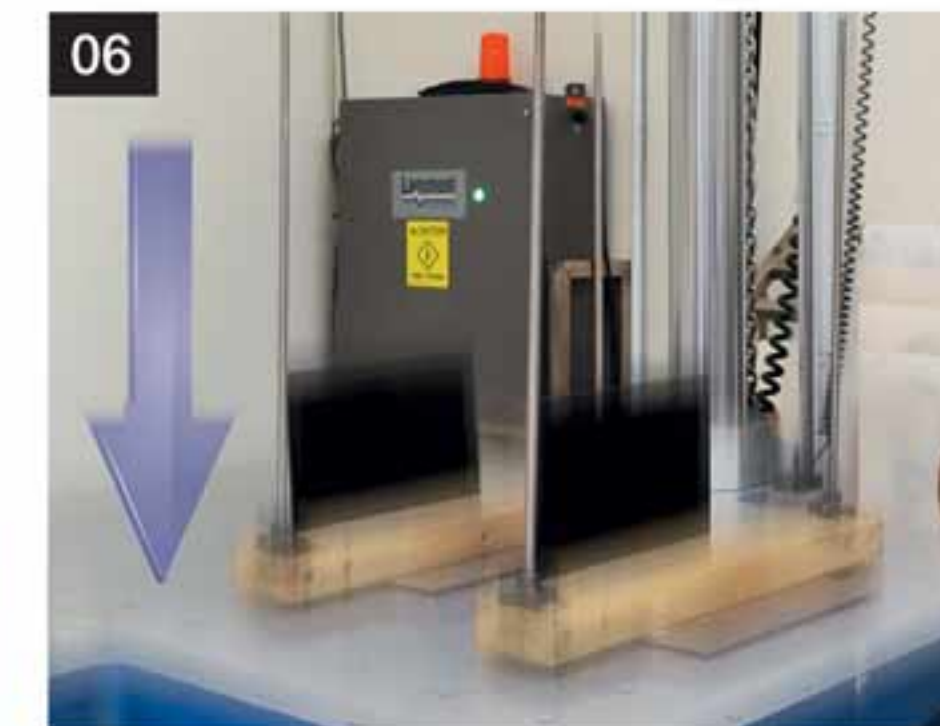

03 Notebook lid hinges are weak spots. Use cheap materials and they'll snap. Vigorous hinge testing conducts thousands of open/close cycles, making sure hinges last the life of your notebook.

04 Abrasive noise tests check for loud fans, storage, even power delivery buzz, hushing them to create quiet notebooks. The entire chassis then passes audio tuning to deliver the best sound possible.

05 Drop test proves notebook free fall resistance. ASUS quality means notebooks handle drops with no damage to internal components or external design, far beyond industry standards.

06 Shock test takes notebooks and simulates incidents that occur during shipping. With a big smile on their face, engineers make sure the notebooks survive these with no performance penalty.

07 Premium panels must handle limited spaces such as suitcases, and allow you to touch them without causing damage or distortion, so panel pressure testing ensures ASUS notebooks only use the best.

08 Twist test checks chassis rigidity. Grabbing the notebook with one hand? No problem, this trial checks for uneven twist force endurance to give you the flexibility you need.

09 Riding on bumpy roads, some PCs may start falling apart. Not ASUS notebooks. Harsh vibration testing ensures parts stay put and performance remains consistent even when the shaking starts!

10 Halt test stands for «Highly Accelerated Life Test», and expressmoves notebooks through their typical life cycle to ferret out problems, with extensive analysis conducted by engineers.

11 Port test ascertains contacts and plugs are solid for frequent plugging / unplugging and can handle cable quality variations without data transfer and fidelity degradation.

12 Tough temperature tests verify diverse operating conditions, from every low temperatures to high heat, including humidity for accurate results. Whatever the mercury shows, ASUS notebooks can take it.

Marks in History: ASUS Notebooks

ASUS notebooks have been tested in the most harsh conditions and the most exotic locations. Many of these incredible actions have become the stuff of legend. We detail the accomplishments that have left an indelible mark on history here.

In outer space

ASUS Notebooks Experience Zero Defects throughout a 600-day Space Mission.

Two ASUS notebooks were selected by R&K—a major supplier of computers and electronics for aeronautic missions to outer space—to provide astronauts with dependable computing during a mission throughout the 600-day period. "The ASUS notebooks never overheated like some of the ones made by other companies," said Sergei Avdeev, the Russian astronaut on the space mission. "Thermal flow in space and on Earth is completely different. Only notebooks with the best heat dissipation solutions can survive continuous operation. We turned the notebooks on in the morning and left them on all day without a problem," he said.

On the Road

ASUS Notebooks Perform Flawlessly During a Grueling Off-road Race.

ASUS notebooks were chosen to perform critical tasks during the PATAGONIA 2000 race, which saw the computers used in hot deserts and snow-covered mountains. One of the key tasks entailed serving as navigation devices, which they excelled at due to their built-in satellite GPS functionality and ability to display dynamic maps. They also served as communication centres, enabling both email communication and bidirectional video conferences. "Needless to say, ASUS computers survived the severe conditions of this strenuous voyage well, without a single flaw," said Aviv Shweky, the race organizer.

At the ends of the earth

ASUS Notebooks Conquer the North and South Poles

ASUS notebooks have proven on separate occasions to function perfectly in the freezing temperatures of the North and South Poles. The most memorable of these expeditions took place on December 16, 2003, when acclaimed mountaineers Shi Wang and Jian Liu set out on their journey to reach the summit of Mount Vinson, the tallest peak in Antarctica at 16,000 feet and where temperature drops well below -100°F. Wang and Liu each brought along an ASUS S200N notebook to record and share their experiences during the expedition. The S200N met their needs perfectly; it was lightweight and compact, had a large hard disk capacity and could handle the rigors of ascending a mountain. "They worked without a glitch under extreme conditions and severe weather. It was nice to have a notebook I could count on in situations where malfunctions are not tolerable," said Wang.

In the air

ASUS Notebooks Help NRMA CareFlight Helicopter Rescue Unit Save Lives.

NRMA CareFlight, an emergency medical and rescue helicopter unit that serves the people of New South Wales of Australia, uses ASUS notebooks in different sectors of its service, including aviation, medical treatment and administration. ASUS notebooks play a particularly critical role in CareFlight's program aimed at improving survival rates in accidents with severe head traumas. With the help of mobile computing, CareFlight can deliver a medical team on scene faster than a local ambulance, and this new program is expected to reduce deaths from head injuries by 33%. "All our pilots

have been very impressed with the ASUS M5 notebooks and amazed at their ability to withstand the vibration of the aircraft," Mark Lees, Community Relations Manager of CareFlight, said, "We are now ready to install ASUS M5 notebooks in all our aircraft and to link them to the onboard navigation computers."

On the world's highest peak

ASUS Notebooks are the First Reach the Top of Mount Everest.

The harsh conditions at the peak of the world's highest mountain may faze other notebooks, but not ASUS. A Slew of ASUS notebooks—including the U5, S6 (both the leather and bamboo editions), W7 and U1—were chosen to accompany a team of mountaineers on an expedition to reach the top of Mount Everest, known the locals in Tibet as the Qomolangma Peak. Upon reaching the base camp at an

elevation of 5,000m, only ASUS notebooks continued to operate. Other notebooks failed to boot up due to the extremely low ambient temperature. The ASUS u5 even made it to the top of Qomolangma Peak at a staggering height of 8,848,43m, thanks to expedition leader Captain Wang Yongfong who carried it along with him as a tribute to eco-friendly technology—making ASUS notebooks the world's first to reach the top of Mount Everest.

ASUS won 3886 awards in 2011

Driven by our innovation approach for consistent perfection of design and performance had garnered us a total of 3,886 awards worldwide in 2011.

iF Design Awards

ASUS products have won numerous international industrial design awards and have once again demonstrated their outstanding design quality and innovation by taking home no less than 10 accolades at the iF Design Awards 2012.

Eee Pad Transformer Prime Eee PC™ X101 ASUS Zenbook™

INNOVATIONS International CES Awards

Six ASUS products have been selected for the CES 2012 Innovations Design and Engineering Awards honoree program. The awards have become a hallmark for the best-designed products in consumer technology and our brand promise of Inspiring Innovation • Persistent Perfection has resulted in such wide recognition for our products.

"Padfone is a great device with every useful accessories"

nexus 7

HardwareZone AUG 2012
http://www.hardwarezone.com.my/product-google-nexus-7

"Very attractive price point, Superb overall performance, Great design and handling"

Stuff SEP 2012: Test

"Too small to slay he iPad, but every other 7in tablet might as well give up - the Nexus is king"

Pick Up & Return Service

ASUS Pick-Up & Return Service at Your Door Step

Still finding a nearest Service Center?
Or too busy to send over your notebook to a particular Service Center?

Now, ASUS provide an exclusive solution for you! Other than 2 years Global Warranty, ASUS also provide a premium **PICK UP & RETURN SERVICE** for end users & dealers. Pick up & return service allows end users to request for door-to-door pick up service or you may just drop your notebook/tablet to your nearest dealers.

While for dealers, a simple call/email will instantly get a specialist to pick up the notebook/tablet from your outlet in order to save your time and human resources. In terms of pick up lead time, we can provide earliest of 1 day and latest of 4 days to assure the quality of our service.

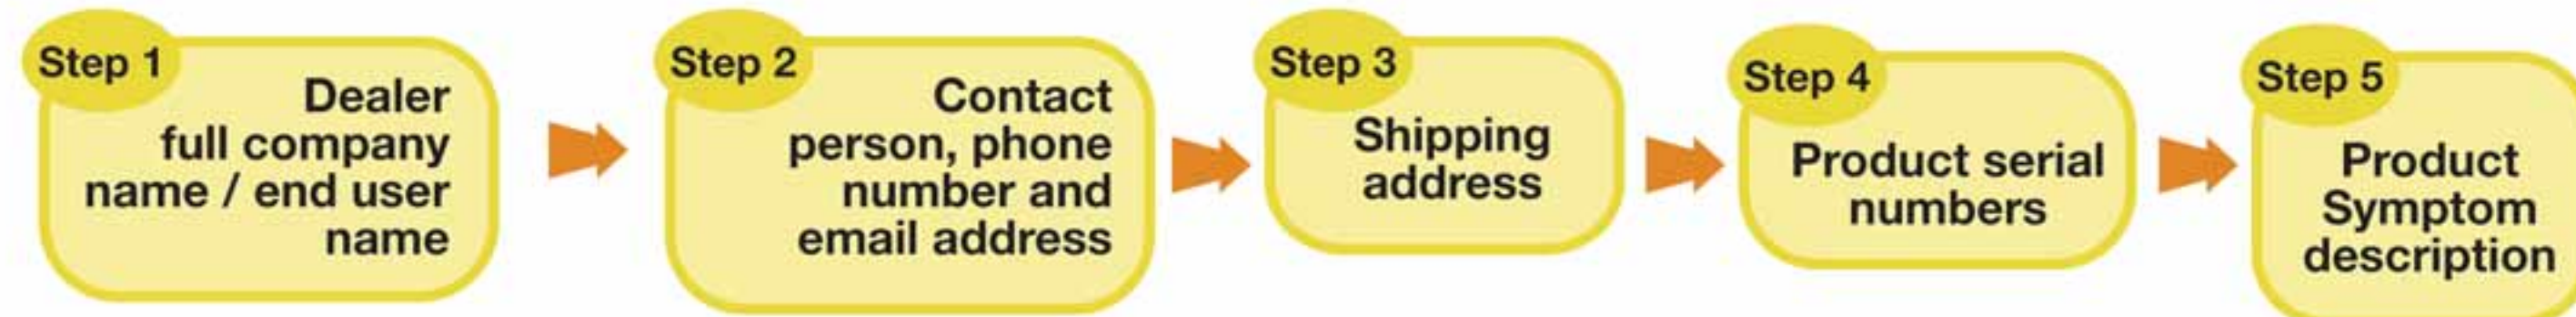

There are only 5 simple steps to apply ASUS Pick Up and Return Service.

How to apply Pick Up & Return Service?

Information Required When Submitting Pick up & Return service request:

Terms and Conditions:

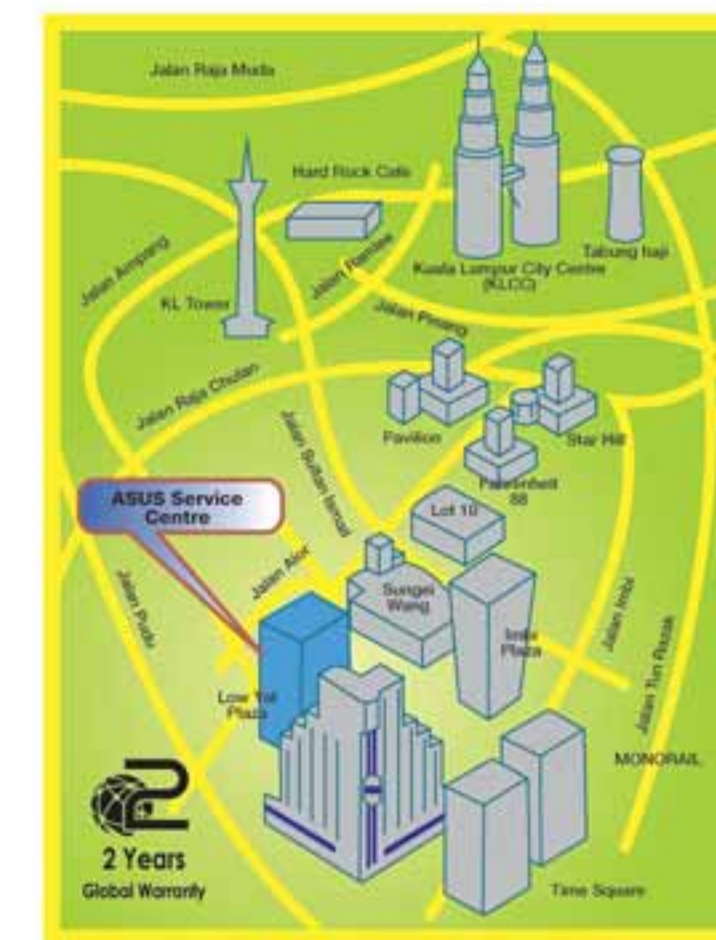

- (1) The Pick-Up & Return service applies to ASUS Notebook and Eee PC only.
- (2) The Pick-Up & Return service for defective unit within warranty period will be free of charge.
- (3) Out-of-warranty, non-defective or customer-induced damage units are not covered by Pick-Up & Return service. In such cases, dealer or end user needs to carry in for repair.
- (4) Pick-Up & Return service only applies to RMA repairs and does not apply to DOA claims.
- (5) Any Location/City/Town not falling in any zone listed in zone table will be considered non-service area. Any shipment to non-service area is subjected to additional service rate or charge.
- (6) Additional service charge is applicable for delivery to any Island (e.g. Langkawi, Redang, Pangkor and etc) except Penang Island.

ASUS Warranty

ASUS Global 2 Years Warranty

ASUS offers Consumers 2 years Global warranty on Notebooks*

*Applicable for selected notebook models only

Location Map of ASUS Service Centre in Low Yat Plaza, Kuala Lumpur

Unlike brands that promise multiple years of product warranty but charge users components and repair fees after the first year, ASUS 2 years Global warranty is applicable both domestic and global in 57 countries. By providing a real warranty to protect your purchases, ASUS demonstrates confidence in its ability to offer unrivaled quality wherever you may go. Eee PC notebooks are covered for 1 year global warranty.

Global Extended Warranty

Notebook from 3rd Year

Do you know how much it will cost you to repair a notebook after the one year warranty?

If your notebook is broken after the one year warranty, you might need to spend **RM900** to **RM1800** to repair your notebook. Why not choose a notebook brand that comes with 2 years global warranty (*term and conditions apply) that cover components and repair fees? Asus gives you the peace of mind to protect your investment. A comparison of repair cost table from various notebook brands as in your right hand side.

Brand	Costs	LCD is broken after 1 year of use	Motherboard is broken after 1 year of use	Memory is broken after 1 year of use	HDD is broken after 1 year of use
A Brand	Spare Part Replacement Cost (together with labor cost)	RM650 - RM700	RM700	Depend on market price	320GB - RM185 500GB - RM240
H Brand	Spare Part Replacement Cost (together with labor cost)	RM700 - RM900	RM800 - RM1000	2GB DDR2 - RM180 2GB DDR3 - RM200	320GB - N/A 500GB - RM450
T Brand	Spare Part Replacement Cost (together with labor cost)	RM1000	RM1000 - RM1200	RM200 - RM300	320GB - RM500 500GB - RM900

Notebooks that exceed your expectations

ASUS recommends Windows.

Incredible Beauty

13.3" ZENBOOK™ Prime
Incredible 3mm at the front and 9mm at the rear

The original ZENBOOK design brought the world a marriage of design and top-end performance, impressing with a spun metal finish consisting of concentric circles that represent the infinity of incredible possibilities you seek. Refined and durable, the polished metallic look delivers timeless attraction: subtle, eloquent, and powerful in every sense.

Incredible Performance

17.4" G Series
Strike in silence

The fastest processors and most powerful graphics, combined with striking design, make the Extreme Gaming Series a must for anyone who wants to game on the go.

Incredible Multimedia

15.6" N Series
Hear the Incredible, Feel the Power

Crystal-clear screens, fast processors and powerful graphics deliver outstanding multimedia performance, whether you creating digital content—or just enjoying it.

Incredible Experience

14" 15.6" A Series
Dive into Colorful living

The Incredible Experience is designed for people who need a solid, reliable notebook for everyday activities. The range includes both affordable all-round models and high-performance portables.

14" S Series
Performance Ultrabook with Optical Drive

14" K Series
Solid, sleek, and ready to go!

14" X Series
The Metallic Coolness

14" X401 Series
Notebook offer a colorful choice with a thin and light design

VivoBook

11.6" 14" VivoBook
Touch • The World at Your Fingertips

ASUS VivoBooks allow customers to become one with technology through responsive touch panels and intuitive input, offering an ultra-light and extra-thin style that's easy to carry.

VivoTab

11.6" VivoTab
A Brand New Start to Mobile Productivity

You are always on the go. You enjoy having a light & stylish tablet with you to stay in touch with friends and to enjoy multimedia. But occasionally, you need to get some serious work done.

10.1" VivoTab RT
A Brand New Start to Mobile Entertainment

A detachable dock with a stylish, hidden hinge design presents a clean, simple and elegant view that's intuitively easy to adjust. Built to complement the VivoTab RT, it offers the best mobile experience for work and play.

Simple. Beautiful. Beyond smart.

7" nexus7
The playground is open

The Nexus brand represents a premium Android-based device that delivers the best Google experience available on tablet. It's the confluence of the latest software and state-of-the-art hardware and represents a literal nexus of digital life.

Technology Highlight

ASUS Notebook Feature

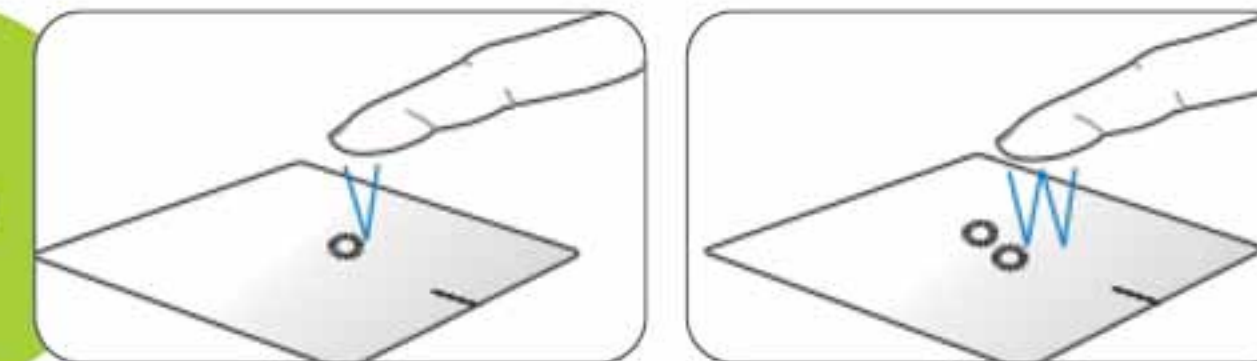

Super Hybrid Engine II

Super Hybrid Engine II incorporates elements of its SHE predecessor and builds on the vitals of better battery performance. Importantly, should battery levels fall below 5%, data is automatically saved and secured on the hard drive*.

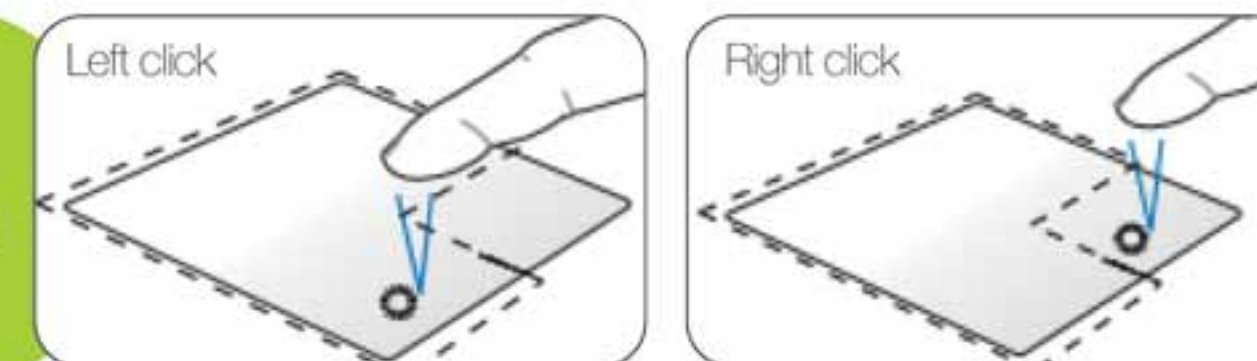

Smart Gesture

Bigger and more intuitive touchpad improves multi-point and multi-gesture input for computing that's always fingertip-natural.

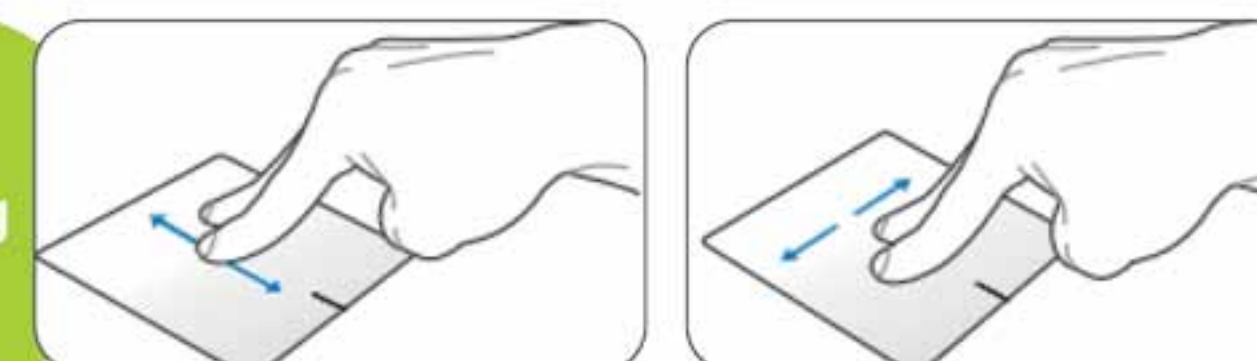

Tapping

Clicking

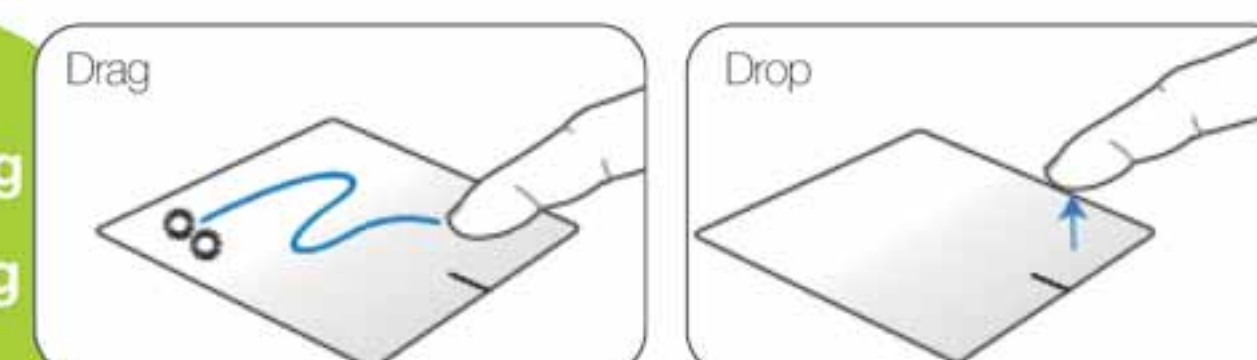

Scrolling

Zooming

Dragging and dropping

Instant On

Always instant on in 2 seconds with up to 2 weeks standby time

USB Charger+

Exclusive Quick Charge technology, which can charge your peripherals like cell phones, even when the laptop is turned off

USB 3.0

Transfers data and HD multimedia content up to 10X faster than USB 2.0 for speedier file sharing and data backups

Keep Palm Rest Cool

Palm rests stay below body temperature, so they feel cool even during the longest typing seasons

Palm Proof Technology

Automatic detection that intelligently distinguishes your palm and finger. Touch pad will be automatically disable when touched by your palm area that helps to prevent typing errors.

Scratch Resistant

Strong yet elegant multi-color aluminum textures personalize the PC experience

Chiclet keyboard

The chiclet keyboard features wide anti-dust keys that provide a comfortable feel even after extended periods of typing

Incredible Beauty

ASUS ZENBOOK™ Prime IN SEARCH OF INCREDIBLE

FOR ALL OF US WHO SEE BEAUTY IN THE CHALLENGE

Ultra-light and ultra-strong metal construction creates a thin form factor that starts at just **3mm at its slimmest point**. Concentric circles throughout send a message of infinite depth, while monoshell construction assures a tough device that can stand to extended portability. Feather-light and slender, ZENBOOK™ presents a masterpiece of balance, offering a striking design that cuts no corners when it comes to durability and technical prowess.

Incredible Performance

ZENBOOK™ succeeds in packing the latest technological PC innovation in its stylish and compact form factor. **New 3rd generation Intel® Core™ CPUs** fast, **Genuine Windows 8 (64-bit)** and **reliable solid state drives**, optimized multimedia output, and a top-notch panel all combine to deliver a spectacular experience. ZENBOOK™ works fast while looking gorgeous, so it's much more than a design showpiece. It is a genuine technological marvel.

Product Features

- 1 Up to i7 processor**
Powered by up to 3rd generation Intel® Core™ i7 processors with Ivy Bridge tech

- 2 Incredible 3mm at the front and 9mm at the rear**
Ultra-thin 3mm at the front and 9mm at the rear with finely spun metal finish

3-mm

- 3 2 seconds Instant On**
Always instant on in 2 seconds with up to 2 weeks standby time

- 4 Notebook with SATA III SSD**
Reduces power consumption while expediting boot up, so users save time and energy

- 5 ASUS SonicMaster Technology**
Incredible audio performance co-developed with Bang & Olufsen ICEpower® with lifelike surround impact

CHIP JUNE 2012: Test Lab

"Excellent screen, improved keyboard, solid performance, amazingly thin"

MOBILE WORLD AUGUST 2012: DEVICES

"I am no longer shy to whip out my notebook in front of friends carrying Macbook"

Incredible Responsiveness

ASUS designers and engineers also decided the time was right to bring smartphone-like immediacy to the notebook space. With the power of **ASUS Super Hybrid Engine II technology** and super-efficient components, ZENBOOK™ achieves true **2-second instant resume** to eliminate irritating reboot waits. Its battery can also sustain up to **14 days of standby time**, and it automatically backs up precious data to the standard SSD whenever charge life drops down to 5%. The result: complete spontaneity and total peace of mind.

True Zen in better detail

ZENBOOK™ Prime upgrades premium visuals with new full HD 1080p that showcases pixel-perfect and vivid images on advanced IPS panels. With 178° angles, IPS technology allows for great views from almost any direction at nearly twice the angles of competing ultrabooks. The new screens also boost color gamut to 72%, and contrast to a bright 800:1, both about double the capabilities of the TN panels on other ultrabooks. Getting Zen is much easier when it's this good-looking!

Incredible Audio

In another accomplishment, designers were able to fit ZENBOOK™ with sound-defining **ASUS SonicMaster technology**, which produces living audio right on the notebook. Co-developed with **Bang & Olufsen ICEpower®**, SonicMaster uses powerful amplification and advanced sound processing to render amazing sonic output. Clear vocals, strong deep notes, an extended range all lead to impressive audio far beyond that offered by mainstream notebook PCs.

ASUS VivoBook

TOUCH • THE WORLD AT YOUR FINGERTIPS

Inspired by the Latin verb for "to live", ASUS VivoBook is a personal companion that blends the unique elegance of ASUS notebook design with the **Windows 8 touch-friendly** operating system. ASUS VivoBook embodies the spirit of touch to maximize intuitive interaction, offering naturally enjoyable user experiences that enhance every aspect of your lifestyle. It has been designed with stand-out aesthetics, true-to-life sound, and instinctive touch. They are ideal for the increasingly cloud-based nature of computing, supporting seamless connectivity and usage on the go.

Optimized for **Windows® 8**, ASUS VivoBooks present an attractive, durable, and very portable design. They integrate **ASUS SonicMaster audio** and **2-second instant on**, and all models include **32GB of WebStorage cloud space for three years**. ASUS VivoBooks embody a new way of offering enjoyable and intuitive notebook experiences to customers

Sleek and trend-setting mobile design

Extra thin and **ultra-light**, ASUS VivoBooks pack full features and the latest technology. These colorful beauties are durable thanks to strong metal construction, with a one-piece reinforced top protecting the display. ASUS VivoBooks fuse craftsmanship and performance, delivering new portable convenience and enjoyment.

Enjoy SonicMaster audio power

Exclusive ASUS SonicMaster, pumps out impactful audio with deep bass and wider range for the best in-class auditory performance. Your music, movies, games, and even voice take on a new dimension of sonic depth – perfect for multimedia. Once more, the **X200 / S200 receives upsized hardware**. Although **11.6" in size, its speakers were designed for 14"-15" models**, resulting in more powerful sound than that offered by much bulkier standard notebooks.

Product Features

- 1 Add your own touch**
To tap personal Windows 8 interaction, ASUS VivoBook comes with intuitive touch screen, creating fun, hands-on, and totally natural experiences.
- 2 Seamless One Piece Keyboard**
Nearly 100 solder points and metal bracket create solid mechanical reliability for a perfect typing feel reinforcement.
- 3 Smart Gesture technology for always fingertip-natural computing**
The compact S200 uses a touchpad sized for 14" notebooks, giving customers more input space. Combined, these guarantee fully-satisfying user experiences based on touch. Bigger and more that's always fingertip-natural, intuitive touchpad improves multi-point and multi-gesture input for computing.

Four reasons VivoBooks are made for you!

- 1. Responsive Touchscreens: Compact 11.6" to spacious 14"**
Every ASUS VivoBook has a touch panel to make the most of Windows® 8, from the 11.6" X202 to the 14" S400 Ultrabook™. Natural touch enhances Windows® 8 usability, so get your hands on ASUS VivoBooks and start experiencing.
- 2. Sleek and trend-setting mobile design:**
Extra thin and ultra-light, ASUS VivoBooks pack full features and the latest technology. Those colorful beauties are durable thanks to strong metal construction, with a one-piece reinforced top protecting the display. ASUS VivoBooks fuse craftsmanship and performance, delivering new portable convenience and enjoyment.
- 3. Enjoy SonicMaster audio power**
Exclusive ASUS SonicMaster, pumps out impactful audio with deep bass and wider range for the best in-class auditory performance. Your music, movies, games, and even voice take on a new dimension of sonic depth – perfect for multimedia.
- 4. Innovative Smart Gesture and 2-second resume!**
ASUS features make technology seamless and immersive. Smart Gesture touchpads allow finger-easy intuitive input, plus freedom from waiting around with 2-second instant on resume to smoothly get back to Windows® 8.

Incredible Transformer

ASUS VivoTab™

Transform to Incredible A Brand New Start to Mobile Productivity

You are always on the go. You enjoy having a light & stylish tablet with you to stay in touch with friends and to enjoy multimedia. But occasionally, you need to get some serious work done. Before, you had to bring your notebook with you, but now you can do it all on your VivoTab. Break the limitations of traditional tablets; move beyond only being the spectator, be the creator.

Product Features

1 ASUS TruVivid Technology

Reduced layers in the display increase backlight efficiency and color clarity.

After Before

2 Super IPS + 1.5x brighter

Ultra bright outdoor readability with 600nits brightness and a super wide 178° viewing angle for easy sharing.

3 Scratch resistant Corning® Fit Glass

Corning® Fit Glass protects the screen for a worry-free, on-the-go device.

Wacom stylus Precise input Write, scibble & draw

Wacom Digitizer Stylus 1024 levels of pressure for easy drawing, sketching and note taking to support your style and creativity. Precise input in **Windows 8** desktop mode.

Ultra thin and light with a 11.6" screen

Enjoying multimedia on the VivoTab is Fan-TAB-ulous. In addition to it's brilliant 11.6" screen, the VivoTab is **ultra thin (8.7mm)** and **light (675g)**, with an elegant metallic surface. SonicMaster audio technology with quad-speakers delivers a superior sound experience.

Mobile Dock

Elegant and light - with a stylish hidden hinge, the new mobile dock allows for comfortable typing on its full QWERTY keyboard and touchpad. Connect any compatible device to one of the two USB 2.0 ports. The integrated battery charges the VivoTab and allows for **up to 19* hours** of mobile computing.

Incredible Performance

ASUS G·SERIES

THE ULTIMATE FIGHTING MACHINE

Inspired by the stealth fighter, the G Series regains superiority over the competition with advanced design and battle-hardened build quality. The soft, sleek but muscular lines will allow you to out maneuver and dominate ungainly competitors, while the advanced thermals and gamer friendly design will keep you immersed in the truly 3D gaming experience for longer.

1 Extreme Performance

A Blisteringly fast Intel® 3rd Generation Core™ i7 CPU

2 Realistic 3D Experience

The latest NVIDIA® GeForce™ GTX graphics with Active Shutter 3D Technology.

G75: Immersive 3D experience with 200% brighter 3D image

3 Intelligent Cooling

G75: Dedicated fans for CPU & GPU, working independently based on individual needs

G55: CPU & GPU dual fans work together for the best thermal efficiency

4 Gamer-Centric Design

Seamless one-piece backlit keyboard with isolated arrow keys and ergonomic inclined design.

Uncompromised Performance

There's a new emperor ruling the world of mobile gaming. The G Series breaks new performance barriers with the uncompromising power of a **third generation Intel® Core™ i7 CPU, Genuine Windows 8 (64-bit) and an NVIDIA® GeForce® GTX 660M/670MX GPU with 2GB/3GB of GDDR5 VRAM.** The G Series establishes itself as the fastest notebook in the land and will not only feed amazing gaming experiences today, but is primed to continue delivering them for years to come. It also includes support for **2 second instant on** when equipped with an **SSH or SSD hard drive**, meaning you no longer have to wait to frag.

Incredible 3D Experiences

The G Series is already destined to become one of the true greats in the world of mobile gaming, but with support for **NVIDIA® 3D Vision™ 2**, including **3D Active Shutter and 3D LightBoost technology**, its place on the hall-of-fame is virtually guaranteed. Games, photos and movies can be experienced like never before – in **Full HD and true 3D!**

An Intense Audio/Visual Feast

Eye strain will be a thing of the past with the G Series's matt finish anti-glare display, while the wide viewing angle reduces the dead zone and

helps to improve visibility during gaming – particularly in dark environments. The built-in subwoofer, complete with SonicMaster audio technology ensures a rich and powerful experience that will ward off challengers.

Incredible Thermal Efficiency

The G75VW packs a massive performance punch, which needs to be kept cool – the dual fan filter system enables you to keep your system running cooler and quieter, for longer. The unique, intelligent thermal design improves power and thermal efficiency by exhausting hot air from the back of the machine, enabling you to leave the competition battling for survival in your wake.

Incredible Multimedia

ASUS N-SERIES

HEAR THE INCREDIBLE, FEEL THE POWER

Audio by Bang & Olufsen ICEpower®

ASUS N Series of multimedia notebooks represent an entirely new standard in ASUS design thinking towards delivering greater customer happiness. They feature a focus on attractive design and aesthetic appeal alongside the finest professional-grade audio offered on notebook PC.

SonicMaster Premium with MaxxAudio 3

Featuring co-development with **Bang & Olufsen ICEpower®** and **Waves MaxxAudio**, upgraded **SonicMaster Premium** utilizes professional sound processing tools to boost audio fidelity and enjoyment. In addition to a wider range and improved clarity, N Series notebooks include a **bundled subwoofer** for extra-impactful bass, culminating in the finest audio on any portable PC. **2011 Technical Grammy award-winning MaxxAudio** is one of the leading professional audio processing tools in the sound industry.

Elegant, luxurious design

Although brand new, N Series notebooks have already secured a coveted **2012 reddot design award** for their attention to stylish materials and design considerations. They offer consumers an attractive hairline-etched metallic cover with an illuminated ASUS logo for added impact, plus a unique ripple-effect speaker mesh that signifies the flow of sound provided by SonicMaster Premium.

reddot design award
winner 2012

Product Features

- ASUS SonicMaster Technology**

 ASUS SonicMaster Premium technology co-developed with Bang & Olufsen ICEpower® audio expertise integrates professional Waves MaxxAudio 3 tools to enhance sound enjoyment
- 2 seconds Instant On**
 ASUS Super Hybrid Engine II powers true 2-second instant on resume
- Quick Charge. Even When Powered Off**
 USB 3.0 ports for super speed performance that's 10x faster than existing USB 2.0. Quick Charge technology, which can charge your peripherals like cell phones, even when the laptop is turned off
- Wide Viewing Angle**
 Premium screens support up to 150° horizontal by 120° vertical angles, expanding visual enjoyment from almost any direction. ASUS brings you living room image fidelity, with uncompromising display finesse that gives you the best viewing possible.
- Keyboard Backlight**
 Provides eye-friendly illumination to light up the dark.

SonicMaster Premium delivers:

Crystal clear sound

Every note and nuance comes across to listeners in pure fidelity, with no compromise.

Wide frequency

SonicMaster retains a professional-grade frequency range, much like stand-alone hi-fi systems.

Distinct vocals

Vocal performance on SonicMaster notebooks sound uncannily concert-like, as if transporting listeners to a live show.

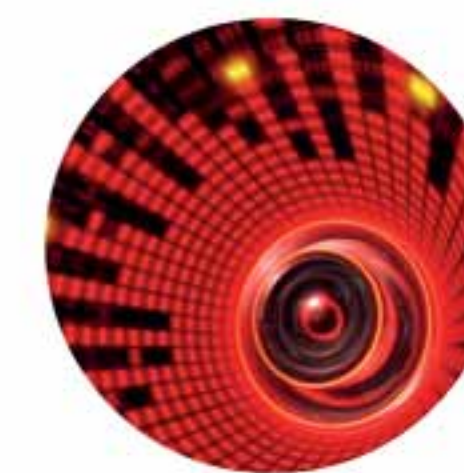

Deeper and richer bass

SonicMaster's large speaker chambers and bass extension algorithms ensure impressive bass performance.

Lifelike surround

Implementing the latest codes, SonicMaster brings a 3D feel to movies and games.

Overall power upgrade

The amplifier in SonicMaster-certified notebooks receives much higher voltage than the norm for notebooks, enabling playback at significantly higher volumes.

ASUS S·SERIES / ASUS K·SERIES

Sleek Ultrabook™ with optical drive

Beyond being extra thin and light, ASUS S / K Series ultrabooks pack a full feature set in just **21mm**. The cool grey hairline design expresses a personal professional approach. One-piece molded top casing reinforces notebook strength and rigidity, and the entire style embodies subtlety that meets all your performance portability needs.

Reliable Performance with i5 processor and discrete graphics card

Genuine Windows 8 (64-bit), the ASUS S46CM features up to **3rd generation Intel® Core™ i5** processors with Ivy Bridge technology and **NVIDIA® GT 635** series discrete graphics, so you're always in charge of smooth power for daily computing.

Smartphone-like responsiveness with instant on*

Only ASUS notebooks offer you true **2-second instant on** resume from sleep or hibernate, cutting out long reboot times and putting you back to enjoyment right where you left off. Thanks to **ASUS Super Hybrid Engine II technology**, you also get up to **9 days of standby**, with **auto data backup** should battery charge drop to 5% or less.

*Actual K46 standby time may vary due to specific component performance, connected devices, and environmental differentiation.

Exclusive Technologies

- 2 seconds Instant On**
Through the efficiency of Super Hybrid Engine II technology and with instant on functionality enabled, the S Series has a standby time up to 9 days*.
- Worry Free, No Data Loss**
Thanks to ASUS Super Hybrid Engine II technology, with auto data backup should battery charge drop to 5% or less.
- SonicMaster Lite**
Exclusive ASUS audio technology enhances multimedia enjoyment with clearer, more powerful sound in every application.
- User-centric innovations**
The large Smart Gesture touchpad enables always fingertip-natural computing, and the back-assembled chiclet keyboard assures extra-solid typing for greater comfort.

Ultra sound incorporate

Exclusive ASUS SonicMaster Lite audio provides better sound performance in every application, including music, movie watching, and gaming. Audio comes across clearer, cleaner, more powerful, and distinctly impactful, using improved processing and high-grade speakers.

Innovating in user comfort and access

For more intuitive and easier input, the S / K Series offers a large touchpad enhanced with Smart Gesture technology, which supports a wider range of touch gestures including two-finger zooming, rotating, and scrolling, as well as three-finger swiping. The keyboard likewise uses premium back-assembled construction and a stylish chiclet design, resulting in a solid and more satisfying typing experience.

Sleek Ultrabook™ with 21mm

The first thing standing out about the S & K Series is the **21mm** profile, a remarkable achievement considering the amount of technology within. In terms of finish and styling, it employs grey-colored hairline treatment on covers, with a one-piece molded top casing that helps ensure greater product strength and durability in highly mobile scenarios. The overall design embodies subtlety and sophistication, while crafted to accommodate a diverse range of applications and customer lifestyles.

Incredible Experience

ASUS A·SERIES

Dive into colorful living

Chill your touch with IceCool Technology

Stand out from a sea of mediocrity with the ASUS A Series. Available in passion red, electric blue, pure white, smoky black or dark indigo, its streamlined aluminum lines deliver a luxurious, premium feel. The A Series delivers uncompromised performance with the **3rd generation Intel® Core™ i5 processor, Windows 8 (64-bit), NVIDIA® GeForce® 600 Series** graphics processor. In addition, the ASUS Super Hybrid Engine II technology increases energy efficiency and gives the A Series **instant on 2-second resume** capabilities. Put those together with ASUS SonicMaster Lite technology and the A Series provides an immersive multimedia experience.

Keeping computing cool and easy

The A Series has an array of features designed to make computing easier. It features an **ergonomically-designed iF Design award winning chiclet keyboard**; while **IceCool Technology** places heat-generating components away from the palm rest, ensuring a comfortable typing experience for users even after prolonged periods of use.

Product Features

1

SuperBatt Technology

Unique battery design on ASUS notebooks extends recharge cycle longevity by up to 3X

2

2 seconds Instant On

ASUS Super Hybrid Engine II powers true 2-second instant on resume

3

SonicMaster Lite

Exclusive ASUS audio technology enhances multimedia enjoyment with clearer, more powerful sound in every application

SonicMaster Lite

4

Scratch Resistant

Strong yet elegant multi-color aluminum textures personalize the PC experience

5

IceCool Technology

Palm rests are kept below the average temperature of the human body, even after long hours of computing

47% larger touchpad for better using experience

The touchpad has been enlarged for more precise control and provides smoother multi-gesture input. Furthermore, the screen-ratio alike touchpad (16:9) offers you the more intuitive controlling experiences.

Computing with a smartphone-like user experience

The A Series features a smartphone-like "always on" user experience thanks to the **ASUS Super Hybrid Engine II** with instant on technology. It enables the A Series to **resume from sleep mode in just 2-seconds**, and provides **up to two weeks** of standby time. In addition, it **automatically secures and backs up data** when the battery drops to 5% charge.

Increases the battery charge cycle lifespan by up to 300%.

The charge capacities of current notebook batteries have a tendency to deteriorate over the course of their lifespan. ASUS **SuperBatt Technology** is a battery power management technology designed to prolong the battery charge capacity through the course of numerous charge-discharge cycles. With it, A Series notebook extends battery **charge cycle longevity by up to 300%** compared to normal notebooks.

Amazing Audio

ASUS SonicMaster Lite gives the ASUS A Series the ability to deliver more powerful sounds and richer bass to provide the best audio experience in the mainstream notebook class.

Simple. Beautiful. Beyond smart.

nexus⁷

The playground is open.

Nexus 7 was built by ASUS and comes with a NVIDIA® Tegra® 3 quad core processor so everything is faster -- pages load quickly, gameplay is smooth and responsive, and running multiple apps is a breeze.

Thin, light and portable

Nexus 7 was built to bring you the best of Google™ in a slim, portable package that fits perfectly in your hand.

Stunning 7" display

With a vibrant 1280 x 800 high-definition display, Nexus 7 brings apps, games, books and movies to life. New ASUS TruVivid technology improves color clarity and brightness, while the IPS panel delivers crisp and detailed visuals with ultra-wide 178° viewing angles. Scratch-resistant Corning® Fit Glass and a textured chassis design that prevents hand slippage ensure Nexus 7 is incredibly robust and meets the demands of consumers on the go.

Less charging, more doing

With over 9 hours of HD video playback, 10 hours of web browsing or e-reading and up to 300 hours of stand-by time, Nexus 7 is designed to go the distance. Whether you measure battery life in chapters read, levels completed, movies watched or minutes of backseat silence, you can spend less time charging and more time doing.

Android, Google, Google Play, Google+, Gmail, Chrome, Nexus, YouTube and other marks are trademarks of Google Inc. The Android robot is reproduced or modified from work created and shared by Google and used according to terms described in the Creative Commons 3.0 Attribution License.

Designed with gaming in mind

Nexus 7 was created for mobile gamers. With an NVIDIA® Tegra® 3 quad-core processor, everything is faster -- pages load quickly, gameplay is smooth and responsive, and running multiple apps is a breeze. With heart-pounding quad-core performance, a responsive 10-finger multi-touch screen, plus gyroscope and accelerometer sensing, you can barrel roll, tilt, touch, and tap your way to the top of the leaderboards while exploring over 600,000 apps and games available on Google Play.

Android™ 4.1: The world's most popular platform

Nexus 7 is powered by Android 4.1, Jelly Bean, the latest version of the world's most popular mobile platform.

Face Unlock

Unlock your tablet with a smile. No complicated passwords to remember, just switch on your tablet and look into the camera to quickly unlock your tablet.

Android Beam

Easily share contacts, websites, apps, maps, directions and YouTube™ videos to other people close by. Simply hold two NFC enabled Android tablets close to each other and push to beam and share.

Made for Google Play™

Nexus 7 was made for Google Play, putting all the entertainment you love right in your hand, with over 600,000 apps and games.

Optional: Light and convenient protective cover

For users who seek additional protection, Nexus 7 has an optional protective smart cover. The smart cover is a tough, yet snug-fitting polymer case with a non-slip matte texture that protects Nexus 7 from bumps and scratches, and also provides additional grip.

The case comes in six different colors to allow users to pick the one which best fits their lifestyle and allows Nexus 7 owners to travel with confidence.

Google

ASUS

Google+™ with Hangouts

Video chat with up to 9 people.

Camera with Single - Motion Panorama Mode

Take amazing photos or videos, edit and then share them right from your tablet.

Voice Typing

Simply touch the microphone on the keyboard and use your voice to type your emails, SMS, or anywhere you want to enter text.
