Top 3 ANDROID TABLET BRAND
worldwide in unit shipments

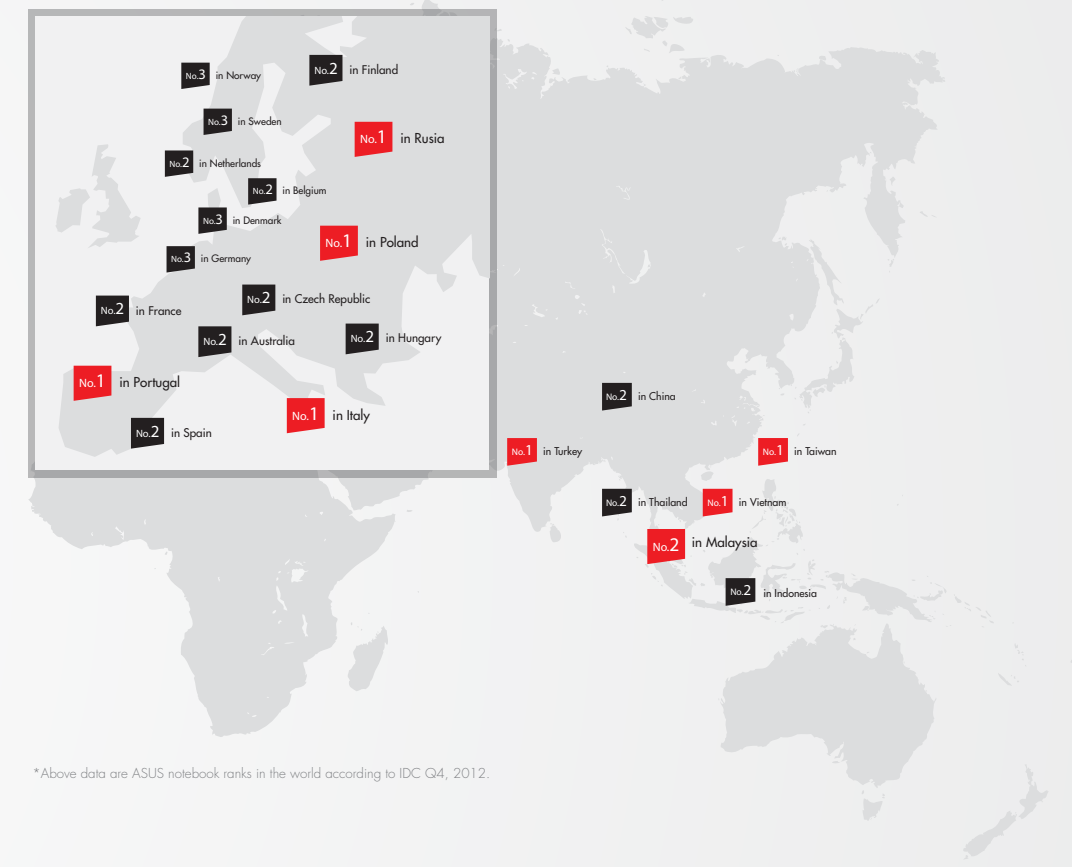

ASUS is a Top 3 Global Android Tablet Brand

According to latest retail sales data, ASUS the Top 2 Global Consumer Notebook Brand, also ranked as Top 3 Global Android Tablet Brand, with one of the biggest selling growth in the world.

Top 2 in Global Consumer
Worldwide Consumer Portable PC Shipments
Source: IDC 2012, Q4

Company profile

ASUS is driven by design thinking and a deep commitment to putting the user's needs first. On its relentless search of incredible, ASUS designs and manufactures a diverse range of products, including desktop PCs, displays, graphics cards, netbooks, networking devices, servers, smartphones and tablets. ASUS revolutionized the PC industry with its Eee PC™ and its products won 4,168 awards in 2012. ASUS employs more than 12,500 people around the world and its leading R&D team includes 3,800 engineers. Company revenue for 2011 was approximately US\$11.9 billion.

ASUS fonepad™

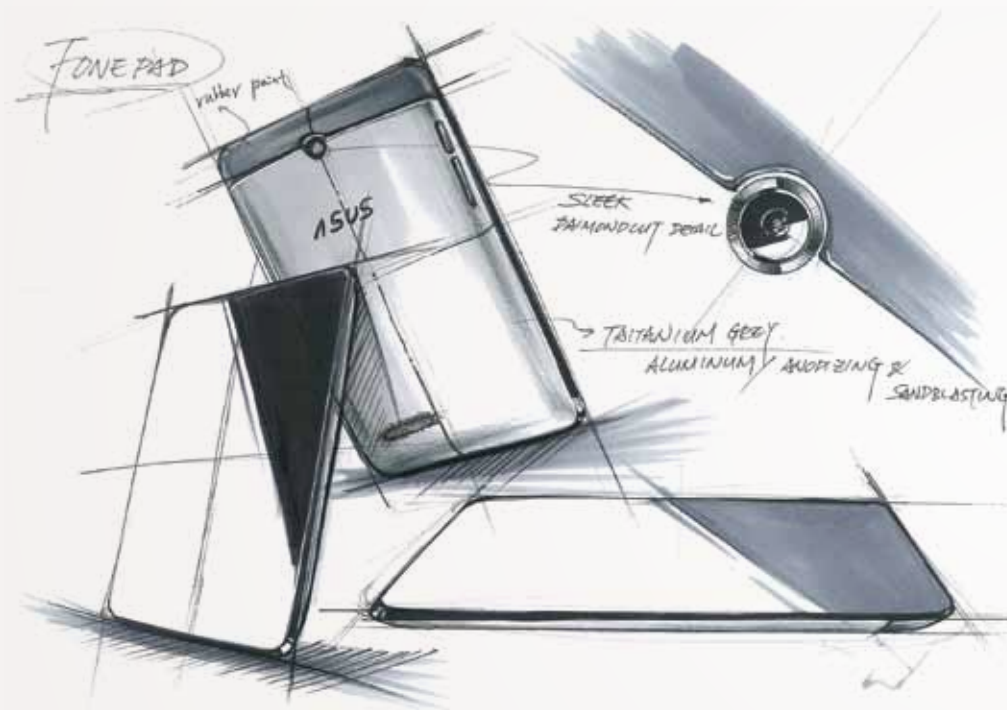

Design Thinking Philosophy

ASUS design thinking begins with the idea that technology must adapt to our ever-changing lifestyles, and not the other way around. Consider the smartphone. Smartphones were originally designed to be used as a phone first and a handheld computer second. Given that we now spend more time looking at the screen on our smartphones than actually making calls, why are their screens still so small? Keeping this in mind, we created the ASUS PadFone™ — a compact smartphone that transforms into a full-size tablet. However, for those who want just one device to meet all their mobile needs, we now have an alternative.

Complete versatility

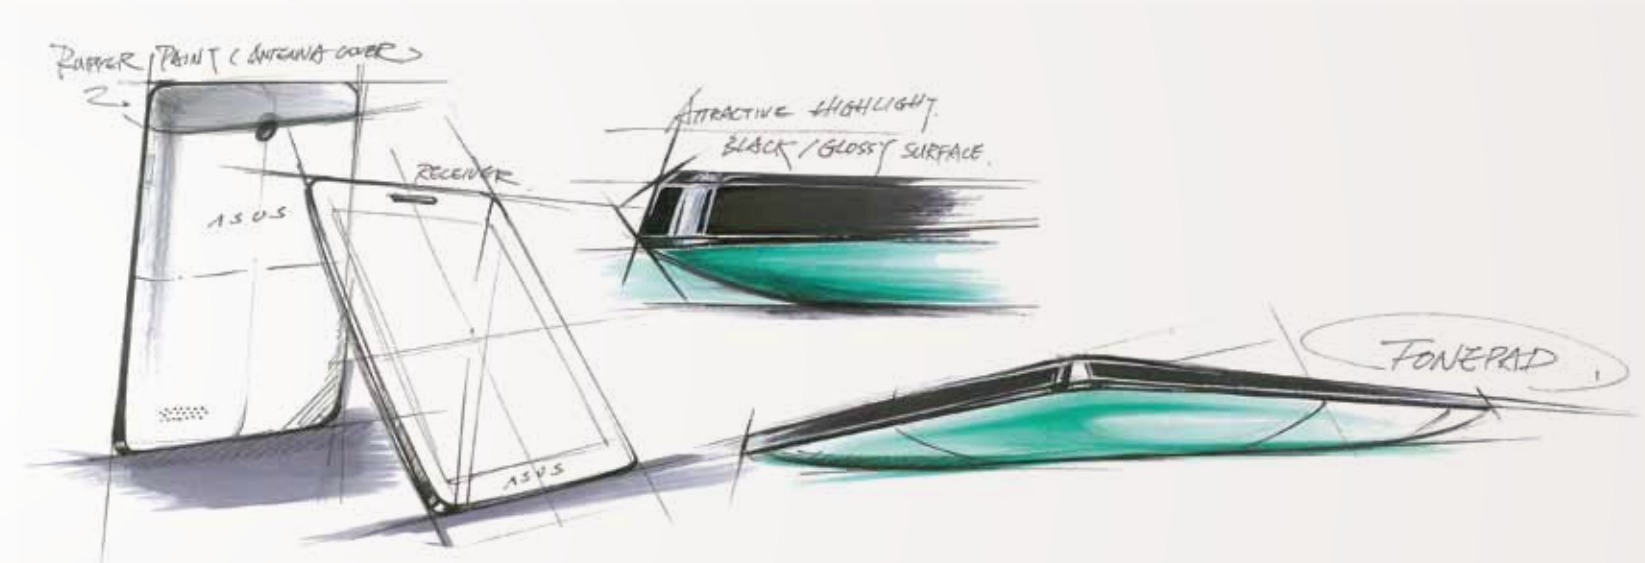

ASUS Fonepad™ combines the advantages of a tablet and a smartphone. It offers outstanding convenience and multi-functionality to meet user needs. The basic design concept behind ASUS Fonepad™ is to keep the device as streamlined as possible, with much of the functionality tucked away.

Anything not utterly essential to the design has been either removed or concealed. For example, rarely-used ports such as MicroSD and the SIM card slot are hidden inside the body of the device, helping keep its exterior lines neat.

Incredible finish

The Titanium Gray ASUS Fonepad™ has a simple black-bordered display that adds visual impact to the screen, while the Champagne Gold version employs a narrow gold-colored display margin for a sense of luxury and class. For the back and camera lens aperture, we opted for seamless, one-piece construction to provide a finer and more holistic visual effect. Concentric-circle diamond etching is used in the area around the camera lens.

Beautiful Design

On its flanks, ASUS Fonepad™ has a wedge-shaped design that keeps the center of gravity lower down the middle of the device, making it more balanced and comfortable to grip. A textured antenna cover adorns the top, and together with aluminum construction delivers equilibrium between tactility and visual presence. ASUS Fonepad™ is for people who want the communication features of a smartphone and the large screen of a tablet, but in a single, more convenient, and completely mobile device.

ASUS tablets and smartphones have won more than 789 international design & technology awards and accolades.

These awards was given by famous international journalists and also famous IT institution throughout the world. These are the proofs that ASUS tablet & smartphone has been acknowledged by the world, both in design and technology.

iF Design Awards

ASUS products have won numerous international industrial design awards and have once again demonstrated their outstanding design quality and innovation by taking home no less than 10 accolades at the iF Design Awards 2012.

<http://awards.t3.com/categories/tech-brand-of-the-year/asus>

ASUS has enjoyed something of a breakout year in the laptop and tablet world, with some beautifully designed and innovative offerings in both sectors.

ASUS Nexus 7

Know Your Mobile

Google Nexus 7 made by ASUS is an awesome device in every way. Truly the best Android tablet out there. Chosen as reader's tablet of the year.

UK
September 2012
Know Your Mobile

Google Nexus 7 made by ASUS is an awesome device with excellent hardware and all priced at a very low price point. Best Android tablet out there.

US
April 2012
Hot Hardware

The Transformer Pad offers just about anything you could want in a tablet, and the Tegra 3 offers more than enough performance for any app available for the device.

US
November 2012
Hot Hardware

Overall Windows RT and the NVIDIA Tegra 3-powered ASUS VivoTab RT is an impressive combination in terms of usability and general performance.

Malaysia
October 2012
CHIP Magazine

Nexus 7 made by ASUS is a speedy 7" tablet with World's First Android 4.1 Jelly Bean, have an excellent IPS display and a solid build. Definitely and editor's choice.

Malaysia
August 2012
PC.com

ASUS PadFone is a decent all-in-one smart device that is sure to turn some heads. It has great performance with innovative design.

Malaysia
January 2013
PC.COM

The best feature about this particular Vivo Tab is the battery life; particularly when combined with the keyboard. It easily survived a full week on standby with the batter at half charge.

Malaysia
October 2012
Stuff

ASUS Transformer Pad Infinity is a superb tablet with Super IPS+ screen, detachable keyboard, huge power performance with Tegra 3 and long battery life.

Malaysia
January 2013
CHIP Magazine

The ASUS PadFone 2 addresses every flaw with the original PadFone and improves upon it. Not only is this a lighter, thinner and more powerful device, it's also decked with new and better features that truly elevates this phone-in-tablet device into a wondrously unique experience.

Malaysia
May 2013
CHIP Magazine

ASUS Fonepad Phone 3G capabilities, expandable storage, nicely designed and good performance.

Malaysia
January 2013
T3 Magazine

For the money, the Nexus 7 excels in all departments except storage and is the best Android tablet on the market.

Malaysia
January 2013
Stuff Magazine

With a killer combo of performance, price and portability, the Nexus 7 comes out punching. The Nexus 7 would be a great tab if it cost twice as much, but at this price it's unbeatable.

US
January 2012
CES

Padfone is a breakthrough product which combines smartphone and tablet into an all in one device. It allows consumers to choose the screen size that best with their activities.

France
January 2012
O1net

For the second time ASUS proposes a High Quality Tab: Tegra 3, super IPS+ screen and great contrast. The Transformer Prime takes the best from the Transformer, the power in prime!

France
January 2012
O1net

For the second time ASUS proposes a High Quality Tab: Tegra 3, super IPS+ screen and great contrast. The Transformer Prime takes the best from the Transformer, the power in prime!

Australia
January 2012
CNET

First impressions of Transformer Prime? This thing is thin. It's also lighter than the iPad 2, and, when combined with its champagne-gold backing, presents quite the drool-worthy device.

Australia
March 2012
PC User

With Transformer Prime, HD videos play smoother than ever and games look more fluid and dynamic. This is a pretty compelling tablet, with lots of graphics grunt and solid build quality.

Germany
July 2012
Notebookcheck

Asus presents its low-end Transformer concept in form of the TF300. It provides an enormous added value with the docking keyboard in contrast to other tablets.

Singapore
October 2012
HWM

There is little reason to doubt that we are looking at the best Android tablet on the market right now. In the Android space at least, none of the immediate competition can match its performance.

Germany
November 2012
areamobile

The hardware of the ASUS PadFone 2 is beyond any doubt and provides optima in everyday usage and in many benchmarks.

There are still 761 more and still coming!!!

Elegant metallic finish

Smooth surface with streamlined
design to fit in your hand

7" IPS HD Display

178-degree wide viewing angle and
vibrant 1280 x 800 resolution panel

Beautiful Metallic Design and High Performance

ASUS Fonepad™ delivers all the benefits of a smartphone and the entertainment opportunities afforded by a tablet, and is ideal for people who prefer the convenience of carrying just one device. ASUS Fonepad™ is sleek and compact, with a metallic design that can be held comfortably in one hand thanks to its light 340g weight and slim 10.4mm profile. Powered by the new Intel® Atom™ Z2420 processor and Android 4.1, ASUS Fonepad™ features a perfect balance of performance and energy efficiency, with hardware-accelerated 1080p full HD video decoding and up to 9 hours of battery life.

ANDROID JELLY BEAN	LIGHT	BATTERY LIFE	MEMORY	STORAGE
4.1	340 _{gr}	9 _{hours*}	1 _{gb}	8 _{gb}

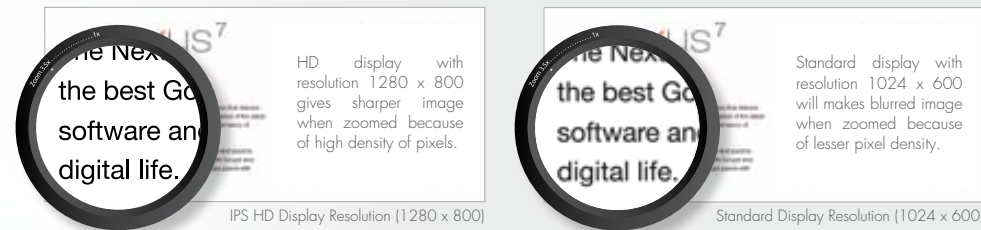

Live Tablet Plus Full 3G Phone

Full 3G support means ASUS Fonepad™ is always connected for seamless web browsing and smooth streaming of audio and video. It can also be used for voice calls using the built-in noise cancelling dual-mic or a Bluetooth headset, and with just one mobile data plan to pay for, costs are much lower than a separate smartphone and 3G tablet.

7" HD (1280x800) IPS Panel with 178° wide view angle

The 10-point multi-touch screen offers crisp 1280x800 HD display for easier text reading on webpages and high detail in everything from movies to games and photos. IPS panel technology provides livelier colors with a wide viewing angle of up to 178 degrees, maintaining clarity even in the bright outdoors.

Text and Pictures will look sharper in 1280 x 800 display compared to standard 1024 x 600 display

Long Battery Life up to 9 Hours*

Powered by the new Intel® Atom™ Z2420 processor, ASUS Fonepad™ delivers extended battery life of up to 9 hours with 2.7 times the energy efficiency of other 7" tablets. It presents all-day usage without worrying about recharging, and offers up to an amazing 31 hours of 3G talk time.

Rear 3MP Camera with Auto Focus

ASUS Fonepad™ features a 3MP rear camera capable of sharp photo quality and 720p HD video recording. For those who love video chat, ASUS Fonepad™ is also equipped with a 1.2MP front camera for smooth video quality.

Premium Aluminum Casing for an Elegant Look

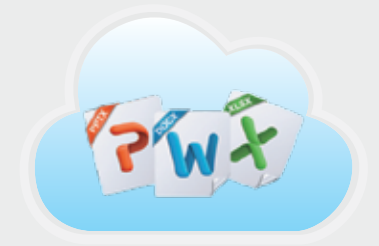

ASUS Fonepad™ arrives in an elegant design that uses aluminum. The sleek metallic finish perfectly fits your palm and is very comfortable to hold. With premium materials, ASUS Fonepad™ is more scratch-resistant than most 7" tablets, which use plastic cases. It delivers superior quality at a very attractive price point.

Available colors: Champagne Gold and Titanium Grey

Lifetime 5GB ASUS WebStorage and Microsoft Office

Every ASUS Fonepad™ purchase includes 5GB of ASUS WebStorage that never expires and can grow as you go. Store photos, videos, and music in the cloud, then access them at any time from any location thanks to Wi-Fi and 3G connectivity. You also get Microsoft office (Word, PowerPoint, Excel, and more) for easy viewing, creating, editing, and sharing of files online using your ASUS WebStorage account.

GPS and GLONASS for Best Navigation Performance

ASUS Fonepad™ boasts 20% quicker positioning speed than GPS-only devices, tapping the additional coverage of 24 GLONASS satellites with precision to within 15m. It's the perfect companion for all your travel, driving, and commuting needs.

	GPS	GPS+Glonass
Road Direction	97.77%	100%
Bus Location	4.97%	100%
Flight Navigation	60.12%	100%
Sea Navigation	99%	100%

Why ASUS FonePad™?

ASUS Fonepad™ is perfect for people who value both the voice communication features of a smartphone and the increased entertainment opportunities afforded by a big-screen tablet, but prefer the convenience of carrying just one device.

ASUS Fonepad™ is the one device for everything you do.

VivoTab™ Smart comes with the Intel® Atom™ Dual-Core Z2760 Processor (1.6 - 1.8GHz) and runs on the Windows 8 operating system. ASUS VivoTab™ Smart features an ultra-thin and lightweight form factor, making it ideal for those always on-the-go.

CONNECTION	THIN & LIGHT (TABLET)	MEMORY	STORAGE
LTE	9.7 mm	580 gr	2 gb 64 gb

Complete Experience

ASUS VivoTab™ Smart comes with the full version of Windows 8, which gives you all the functionalities you get in a PC. This lets you fully utilize most of the applications found in previous Windows versions (dependent on app compatibility). With Windows 8, you can organize your files, edit your photos and videos, and chat with friends. Do it all on your ASUS VivoTab™ Smart tablet.

Why ASUS VivoTab™ Smart ?

ASUS VivoTab™ Smart is an ultra thin and light Windows 8 tablet. It comes with a stylish design and is more affordable than other Windows 8 tablets. It also comes with the latest LTE technology for the fastest connection speeds. ASUS VivoTab™ Smart also comes with additional accessories like the origami cover and a thin Bluetooth keyboard designed to enhance your productivity (sold separately).

ASUS PadFone™ Infinity and ASUS PadFone™ Infinity Station both feature stunning Super IPS Full HD displays.

THIN & LIGHT of ASUS PadFone™ Infinity

THIN & LIGHT of ASUS PadFone™ Infinity Station

8.9_{mm} 145_{gram} | 10.6_{mm} 532_{gram}

Incredible 2-in-1 Innovation

Instant transition with DynamicDisplay

Instantly transform the 5" smartphone into a 10.1" tablet. DynamicDisplay technology even reformats apps automatically to suit the larger display.

No More Syncing

Forget about keeping data in sync between different devices — ASUS PadFone™ Infinity means it's always up-to-date and available on both smartphone and tablet.

Maximum Savings

The PadFone Infinity Station uses the PadFone Infinity's data connection when docked, which means a single data plan can be shared between both devices, removing the need to pay twice for the same service.

Why ASUS PadFone™ Infinity ?

The ASUS PadFone™ Infinity is a true 2-in-1 innovation and combines both smartphone and tablet on a single data plan. The ASUS PadFone™ Infinity Station extends the experience of the ASUS PadFone™ Infinity, with more battery, bigger sounds and more display real-estate, so you can enjoy the Android™ 4.1.2 'Jelly Bean' experience even more!

5 Simple Steps to Apply ASUS Pick Up and Return Service.

How to apply Pick Up & Return Service?

Information Required When Submitting Pick up & Return service request:

Terms and Conditions:

- (1) The Pick-Up & Return service applies to ASUS Notebook and Tablet only.
- (2) The Pick-Up & Return service for defective unit within warranty period will be free of charge.
- (3) Out-of-warranty, non-defective or customer-induced damage units are not covered by Pick-Up & Return service. In such cases, dealer or end user needs to carry in for repair.
- (4) Pick-Up & Return service only applies to RMA repairs and does not apply to DOA claims.
- (5) Any Location/City/Town not falling in any zone listed in zone table will be considered non-service area. Any shipment to non-service area is subjected to additional service rate or charge.
- (6) Additional service charge is applicable for delivery to any Island (e.g. Langkawi, Redang, Pangkor and etc) except Penang Island.
