**Splendid™ Video Intelligence Technology**

All ASUS monitors are meticulously optimised by engineers via Gamma adjustment in Photoshop to create the ideal colour presentation for the 5 most common scenarios.

- Scenery mode** Tweak the brightness range and the color saturation for greener land and bluer sea.
- Theater mode** Enhances the contrast and color saturation to deliver livelier and vivid visuals
- Game mode** Distinct contrast brings out details even in extra-dark areas so nothing escapes your attention
- Night View mode** Raising the Y-Luminance signal to highlight poorly-lit details
- sRGB mode** Calibrated to display authentic color, offering the best performance for viewing online graphics
