ASUS is a Top 2 Global Android Tablet Brand

According to latest retail sales data, ASUS the Top 2 Global Consumer Notebook Brand, also ranked as Top 2 Global Android Tablet Brand, with one of the biggest selling growth in the world.

Company profile

ASUS is driven by design thinking and a deep commitment to putting the user’s needs first. On its relentless search of incredible, ASUS designs and manufactures a diverse range of products, including desktop PCs, displays, graphics cards, netbooks, networking devices, servers, smartphones and tablets. ASUS revolutionized the PC industry with its Eee PC™ and its products won 4,168 awards in 2012. ASUS employs more than 12,500 people around the world and its leading R&D team includes 3,800 engineers. Company revenue for 2011 was approximately US$11.9 billion.
ASUS Fonepad™

Design Thinking Philosophy
ASUS design thinking begins with the idea that technology must adapt to our ever-changing lifestyles, and not the other way around. Consider the smartphone. Smartphones were originally designed to be used as a phone first and a handheld computer second. Given that we now spend more time looking at the screen on our smartphones than actually making calls, why are their screens still so small? Keeping this in mind, we created the ASUS Fonepad™ — a compact smartphone that transforms into a full-size tablet. However, for those who want just one device to meet all their mobile needs, we now have an alternative.

ASUS Fonepad™ combines the advantages of a tablet and a smartphone. It offers outstanding convenience and multi-functionality to meet user needs. The basic design concept behind ASUS Fonepad™ is to keep the device as streamlined as possible, with much of the functionality tucked away. Anything not utterly essential to the design has been either removed or concealed. For example, rarely-used ports such as MicroSD and the SIM card slot are hidden inside the body of the device, helping keep its exterior lines neat.

Complete versatility
The Titanium Gray ASUS Fonepad™ has a simple black-bordered display that adds visual impact to the screen, while the Champagne Gold version employs a narrow gold-colored display margin for a sense of luxury and class. For the back and camera lens aperture, we opted for seamless, one-piece construction to provide a finer and more holistic visual effect. Concentric-circle diamond etching is used in the area around the camera lens.

Incredible finish
The Titanium Gray ASUS Fonepad™ has a simple black-bordered display that adds visual impact to the screen, while the Champagne Gold version employs a narrow gold-colored display margin for a sense of luxury and class. For the back and camera lens aperture, we opted for seamless, one-piece construction to provide a finer and more holistic visual effect. Concentric-circle diamond etching is used in the area around the camera lens.

ASUS Fonepad™ has a wedge-shaped design that keeps the center of gravity lower down the middle of the device, making it more balanced and comfortable to grip. A textured antenna cover adorns the top, and together with aluminum construction delivers equilibrium between tactility and visual presence. ASUS Fonepad™ is for people who want the communication features of a smartphone and the large screen of a tablet, but in a single, more convenient, and completely mobile device.

Beautiful Design
On its flanks, ASUS Fonepad™ has a wedge-shaped design that keeps the center of gravity lower down the middle of the device, making it more balanced and comfortable to grip. A textured antenna cover adorns the top, and together with aluminum construction delivers equilibrium between tactility and visual presence. ASUS Fonepad™ is for people who want the communication features of a smartphone and the large screen of a tablet, but in a single, more convenient, and completely mobile device.
ASUS tablets and smartphones have won more than 789 international design & technology awards and accolades.

These awards were given by famous international journalists and also famous IT institution throughout the world. These are the proofs that ASUS tablet & smartphone has been acknowledged by the world, both in design and technology.

**if Design Awards**

ASUS has enjoyed something of a breakthrough year in the laptop and tablet world, with some beautifully designed and innovative offerings in both sectors. The Transformer Pad offers just about everything you could want in a tablet, provides an enormous added value to other tablets.

**iF Design Awards**

ASUS has enjoyed something of a breakthrough year in the laptop and tablet world, with some beautifully designed and innovative offerings in both sectors.

**Innovations International CES Awards**

ASUS products have been selected for the CES 2012 Innovation Design and Engineering Awards honoree program. The innovation honoring is heartfelt for the benanchmarked products and innovative technology and our brand promise of Inspiring Innovation • Persistent Design and Engineering Awards honoree program. The awards have been given to 150 companies for exhibiting unique experience.

**Editors’ Choice**

For the money, the Nexus 7 excels in all departments except storage and is the best Android tablet on the market.

**Editors’ Choice**

There is little reason to doubt that we are looking at the best Android tablet on the market right now. It is the definitive tablet, with fast performance, amazing usability and general performance.

**Editors’ Choice**

There are still 761 more and still coming!!!
The New ASUS Transformer Pad
Transform the Way You Work and Play

TF701
Infinitely the Best Visual Experience in Stunning 2560 x 1600 IPS Resolution

Infinitely the Best Visual Experience
The new ASUS Transformer Pad features a 10.1-inch high performance IGZO-1FT display with reduced energy consumption and a very wide color gamut. The 2560 x 1600 WQXGA 300ppi resolution gives an extraordinarily sharp image, while IPS technology ensures accurate color reproduction, wide viewing angles and excellent daylight visibility.

Ultra Performance
NVIDIA® Tegra™ 4 Quad-Core CPU & 72-core GeForce® GPU
Be enthralled by visuals with an added layer of depth and dimension.

Ultra Speed
USB 3.0 10x Faster Data Transfers

Why The New ASUS Transformer Pad?
The New ASUS Transformer Pad is a 10.1-inch Android tablet with a stunning 2560 x 1600 WQXGA 300ppi IPS display, the latest high performance 1.9 GHz NVIDIA® Tegra™ 4 quad-core processor and ASUS SonicMaster audio technology for an immersive entertainment experience whether you’re listening to music, watching videos, or playing games. All this performance is housed in a stylish metallic chassis that’s just 8.9mm thick and weighing a mere 585g, making it extremely portable to take with you wherever you go.

The New ASUS Transformer Pad features a lightweight keyboard dock with USB 3.0 for added productivity, and extends battery life up to 17 hours, ensuring you have more than enough power to keep you going through the day.

Experience high performance gaming on the New ASUS Transformer Pad thanks to its 1.9 GHz NVIDIA® Tegra™ 4 Quad-Core CPU & 72-core GeForce GPU. Be enthralled by visuals with an added layer of depth and dimension.

Why ASUS Fonepad™ Note 6?

The ASUS Fonepad™ Note 6 is one of our most beautiful products to date. Our challenge was in creating a comfortable and stylish experience for our users. The result is a fusion of master engineering with elegant angles.

Smart Select

The new Smart Select feature lets you use the stylus to highlight key words or sentences while browsing so you can instantly translate text.

Smart Peek & Smart Crop

Use your stylus in new ways: Smart Peek gives you a preview of any file on your device. Smart Crop lets you crop and save images with a diagonal swipe of the stylus.

Nexus 7 is made by ASUS and packs a serious punch. With a quad-core Qualcomm® Snapdragon™ S4 Pro processor and 2GB of RAM, everything runs faster. Plus, high-performance rendering ensures 3D graphics are smooth and dynamic.

Lighter than Ever, Lasts Longer

At just 0.64lbs (290g), the all-new Nexus 7 is light enough to take anywhere and fits easily in bags, backpacks, and even back-pockets. With up to 9 hours of HD video playback and 10 hours of web browsing or reading* there’s plenty of juice to get you through the day, and built-in wireless charging means you can charge, grab and go.

The world’s highest-resolution 7” tablet puts over 2.3 million pixels in the palm of your hand. With 323 pixels per inch, you can read text that’s sharper than the printed page and watch videos come to life in vibrant 1080p HD.

Nexus 7 comes loaded with your favorite Google™ apps - like Chrome™, Gmail™, YouTube™, Hangouts™ and Google Now™ - so you can browse, watch, share and stay connected wherever you go.

*Battery life depends on device setup, conditions, usage and environmental conditions. Specifications may vary by region and resale channel.
Nexus 7 is the first tablet to ship with Android™ 4.3, the latest version of the world’s most popular mobile operating system, so it’s fast, fun, and easy to make your own.

Kids back with the world’s largest collection of eBooks, listen to streaming radio and millions of songs, and immerse yourself in thousands of movies and TV shows on Google Play.

Google Now™ tells you today’s weather before you start your day, upcoming Concerts for your favorite artists, flight statuses and more.

Nexus 7 brings you the perfect mix of power and portability and features the world’s sharpest 7” tablet screen.

**Why ASUS MeMo Pad™ 8?**
ASUS MeMo Pad™ 8 yet packs an 8-inch display but gives 30% more screen space than a 7-inch tablet. The MeMo Pad™ 8 features an LED backlit display with a 1280 x 800 resolution and IPS (In-Plane Switching) technology ensures a bright and vibrant image, with wide viewing angles and great daylight visibility. Powered by 1.6GHz quad-core processor for a perfect balance between multitasking performance and energy efficiency, MeMo Pad™ 8 has up to 9 hours battery life with HD video playback.

**Why ASUS MeMo Pad™ 8?**
ASUS MeMo Pad™ 8 yet packs an 8-inch display but gives 30% more screen space than a 7-inch tablet. The MeMo Pad™ 8 features an LED backlit display with a 1280 x 800 resolution and IPS (In-Plane Switching) technology ensures a bright and vibrant image, with wide viewing angles and great daylight visibility. Powered by 1.6GHz quad-core processor for a perfect balance between multitasking performance and energy efficiency, MeMo Pad™ 8 has up to 9 hours battery life with HD video playback.

**An 8-inch Tablet Comes Handy**
A whole new mobile experience awaits you with the 8-inch ASUS MeMo Pad™ 8. Though it has a larger display than normal 7-inch tablets, it doesn’t sacrifice mobility—with a narrow width design allowing you to hold it in the palm of your hand.

**Stylishly Designed for 30% More Viewing Area**
With its streamlined round corners and high gloss black or white finish, ASUS MeMo Pad™ 8 is an elegant device which feels right at home in your pocket. Its 8-inch display gives a 30% larger display area over 7-inch tablets in the market, making it easier for you to read whatever is on screen.

**Smooth Performance from a 1.6GHz Quad-Core CPU**
ASUS MeMo Pad™ 8 packs a 1.6GHz Quad-Core processor for faster, smoother web browsing.

5 Simple Steps to Apply ASUS Pick Up and Return Service.

How to apply Pick Up & Return Service?

(1) Call / Email to request Pick Up & Request Service
(2) Reply email for service and your detail verification
(3) Print out the docket from the email
(4) Stick the docket on the Notebook or Tablet cartons
(5) Wait for the courier to pick up

Information Required When Submitting Pick up & Return service request:

Step1 Dealer full company name/ end user name
Step2 Contact person, phone number and email address
Step3 Shipping address
Step4 Product serial numbers
Step5 Product Symptom description

Terms and Conditions:
[1] The Pick-Up & Return service applies to ASUS Notebook and Tablet only.
[2] The Pick-Up & Return service for defective unit within warranty period will be free of charge.
[3] Out-of-warranty, non-defective or customer-induced damage units are not covered by Pick-Up & Return service. In such cases, dealer or end user needs to carry in for repair.
[4] Pick-Up & Return service only applies to RMA repairs and does not apply to DOA claims.
[5] Any Location/City/Town not falling in any zone listed in zone table will be considered non-service area. Any shipment to non-service area is subjected to additional service rate or charge.
[6] Additional service charge is applicable for delivery to any Island (e.g. Langkawi, Redang, Pangkor and etc) except Penang Island.
